

National Provisioners' 2010 Webinar Series

This provides suppliers
 a high-impact, low-effort,
 highly cost-effective
 integrated marketing
 opportunity to effectively
 brand themselves with
 compelling issues,
 educate their
 customers and
 generate pre-qualified
 sales leads from
National Provisioners'
 powerful audience.

Robotics

Tuesday, February 23, 2010 at 2:00 EST

This *National Provisioner*/Robotics Industries Association webinar will feature a generic introduction to robotics via a variety of case studies with poultry, pork, red meat & dairy processors, including key concepts & insights for processors considering the use of/investment in robotics. Topics discussed in the context of the case studies will include fundamentals of food processing robotics, applications, cost to deploy, R.O.I., sanitary & regulatory considerations, labor savings and other key issues.

Speaker

On behalf of the RIA, presenter, Dick Motley provides sales, marketing and technical support to FANUC Robotics system integrator partners who focus on food and consumer product.

Moderator

Andy Hanacek, editor-in-chief, *The National Provisioner*

Later this year: **New Product Development | June** **Food Safety | September** **Worker Training | November**
