ONE SUPPLIER, ENDLESS POSSIBILITIES

BUYERS GUIDE

WE'RE YOUR COMPLETE PACKAGING PARTNER

NATIONAL COVERAGE • OVER 40 YEARS EXPERIENCE

Take advantage of our dedicated
EQUIPMENT SERVICE TEAM.
Experienced in troubleshooting and
repairing all makes and models of
rollstock and vacuum chamber machines.

**LOWEST LABOR RATES
IN THE INDUSTRY**

800-888-3610

PREVENTIVE MAINTENANCE MATTERS

*Available to any customer with an estimated labor cost of \$1,100 — excluding cost of parts and travel expenses.
Service normally takes about 10 hours to complete — depending on the condition of the machine and availability of parts.*

- Operate faster and with fewer interruptions providing quality and consistency.
- Provides higher safety standards in food safety.
- Reduces costly repairs later.
- Detailed maintenance records as evidence of safety standards.
- Make the most of your investment.

Service will be billed as an hourly rate with a four-hour minimum. Travel expenses will also be billed which would include: travel time, air travel, rental car, lodging and a daily meal allowance.
If the service personnel drives to the customer's location, travel time plus mileage charges will apply.

Need Assistance?

Whether you have a rush order or need to arrange regular shipments, you can count on us for the friendliest, most dependable service. Our experienced staff will answer your questions on pricing, product availability and any other technical questions you may have, as well as take your order.

BUNZL PROCESSOR DIVISION'S PRICE MATCH GUARANTEE*

WE'LL GLADLY MATCH ANY COMPETITOR'S
ADVERTISED PRICE ON MATCHING PRODUCT.

* **What qualifies?** Your product may be eligible for price matching if it is: Identical to the competitor's product. The product must be a matching brand, model number and color to qualify. The product must also be a new product. Immediately available at a qualifying retailer or competitor. We match local competitors (including their online prices) and qualifying online competitors. Exclusions apply including, but not limited to, items sold by Marketplace vendors, competitors' service prices, special daily or hourly sales, and items for sale the Friday before Thanksgiving Day through the Monday after Thanksgiving. **WE WON'T BE BEAT ON PRICE.** We'll match the product prices of key competitors for immediately available new products (excludes clearance, refurbished and open-box items).

Special considerations:

- At the time of sale, we price match all local competitors (including their online prices).
- One price match per identical item, per customer, at the current pre-tax price available to all customers is allowed.

Our Price Match Guarantee does not cover:

- The online prices of retailers not listed in the Special considerations section.
- Products shipped from or sold by third-party sellers on websites.
- Pricing only available to select groups of customers including Membership Program members, loyalty offers, discounts relating to non-warehouse membership or paid loyalty programs and government exchange store offers.
- Competitor offers including liquidation offers, trade-in offers, items denoted as Black Friday pricing and special daily or hourly sales.
- Any financing offers, bundle offers, items included in bundle offers, subscription services, free items, pricing errors, mail-in offers, coupon offers, items that are advertised as limited quantity, out of stock items, clearance items, open-box items, refurbished items, pre-owned items, voice-only deals, and items for sale the Friday before Thanksgiving Day through the Monday after Thanksgiving, whether offered by us or a competitor.

WATCH FOR THESE SYMBOLS:

These products are non-stock or special order and may require additional shipping time or fees.

Products marked with this image are eco-friendly and environmentally safe.

Product complies with HACCP regulations.

Products made in the USA.

Shipped by truck freight. Freight rates are available when ordering.

Certain items in this catalog are not returnable and have a NO RETURN symbol next to them.

You can find SDS sheets on our products at <https://bunzlnasds.appsint.com/SDSLibrary/>

These items are exclusive to Bunzl Processor Division.

These products are considered hazardous materials and therefore could require special shipping. Call for details.

Scan QR codes with your mobile device for direct links to websites, videos and much more.

Thoroughly read and understand all safety instructions before attempting to use this product.

WARNING: Some products in this catalog may expose you to chemicals including DEHP Di (2-ethylhexyl) phthalate or BPA (Bisphenol A) which are known to the State of California to cause cancer or birth defects or other reproductive harm. For more information, visit www.P65Warnings.ca.gov.

TERMS & CONDITIONS

Prices

Prices in this catalog are current prices at publication and are subject to change without notice. In the rare event of a printing error, we reserve the right to charge the correct price. Confirm current prices and availability by phone, fax, or e-mail. Prices are in U.S. dollars and do not include applicable taxes. Current up-to-date pricing can be found on our website www.bunzlpd.com.

Payment Terms

We accept Visa®, MasterCard®, American Express®, Discover® and checks. We offer credit terms of Net 10 days for customers with a minimum monthly volume of \$500, subject to credit approval.

International Customers

Please contact us directly for a “pro forma quotation” with current pricing, appropriate freight, duty, taxes and clearance costs.

Payments may be made in U.S. dollars, Visa®, MasterCard®, American Express®, Discover®, bank transfer, or irrevocable Letter of Credit confirmed by any U.S. bank. Include the invoice number with all payments.

Note: Some items are not available to be shipped outside of the U.S. Check with your sales representative for details.

Specification Changes

Due to continuing improvements, product specifications and pricing are subject to change without notice.

Discounts

Discounted prices for certain catalog items purchased in quantity do not apply to orders shipped outside the United States.

Satisfaction Guarantee

When purchasing from our catalog, you can rest assured that any product you order will meet your expectations — guaranteed! That’s a promise from our friendly and knowledgeable Customer Service Representatives. However, in the rare case that any stocked supply item fails to meet with your expectations or approval, simply call our toll free number within 30 days and we can arrange for a repair, refund, exchange or credit towards your next purchase, except for those items noted as “No Return” items.

Call for warranty information on non-stock or special order items (i.e. equipment, doors, walls, etc.).

Note: A restocking or repair fee may apply on certain special order items.

Shipping

Unless specified, we will determine the most expedient and efficient means of shipment based on dimensional weight - UPS or LTL (less than truckload). Alternate delivery may require additional cost. Appropriate charges will be added to your invoice.

Bunzl Processor Division will not be liable for any claim, loss, or damage caused in whole or in part due to delay in or failure to make delivery when such delay or failure is directly or indirectly caused by act of God; strike or other labor difficulty; transportation problems; accident; act of any civil or military authority; act of war; or act of purchaser; or by the occurrence of any other contingency beyond Bunzl Processor Division’s reasonable control.

Receiving/Claims

It is the buyers responsibility to thoroughly inspect shipments upon receiving.

Prior to signing for your items, check the number of packages received, as well as the condition of the product. Failure to do so will negate the ability to claim damages. Notification of short shipments or damage must occur within 2 business days of receipt of product for credit to be considered.

Report the details immediately to our Customer Service Department by calling **800-456-5624**. Keep the carton and all packing materials. Notify shipper of shortage or obvious damage at time of delivery.

Returns

Please call our Customer Service Department to obtain a return authorization number before returning items. When you call, please provide us with the following:

- BUNZL reference number (on packing slip) or invoice number
- Your purchase order number
- Date of purchase
- Reason for return

All items returned due to duplication or a change of need must be in unused, resalable condition and in its original packaging — within 30 days. Returned items may be subject to a restocking fee. Items returned due to damage occurring during shipping or defective products must be packaged so no further damage occurs.

Note: Returns without prior return authorization will be charged a re-stock fee and may be refused.

Note: Certain items in this catalog are not returnable and have a NO RETURN symbol next to them.

Some of these items include direct food contact items such as: casings, seasonings, packaging products, etc, medicines and medical supplies, certain chemicals, or coatings, stunner loads and solvents.

Confirming Orders

Please do not send a confirming order. If in your system you must send a confirming order, please mark it clearly as confirming to avoid duplication of orders sent.

FREE SHIPPING*
FREE GROUND SHIPPING
 when you place an order for \$500 or more from
THIS BUYERS GUIDE!

*FREE SHIPPING does NOT include UPS Next Day Air, UPS 2nd Day or UPS 3rd Day Select. Certain items may not qualify. This offer is good only on orders shipped UPS Ground in the 48 contiguous states. Based on dimensional weight, we will determine the most efficient means of shipment, either UPS or LTL. Products may ship by truckline.

Bunzl Processor Division (BPD)

BPD is a leader in the food processing and food packaging industries that services national platforms, as well as multi-plant, single-plant, small shops and game processors. Bunzl offers an assortment of high-quality products designed specifically to meet the needs of the food service and food processing industry, under a private label product line called Prime Source®, as well as a myriad of branded exclusive products specific to the food processing industry such as EdgeMaster™ bandsaw blades, the ToteAll 2000® material handling system, WorkHorse® protective wear, Processor's Choice Cures, Clarity™ Flexible Packaging options and many more. With more than 35,000 different supply items and 14 distribution centers serving Central and North America, including the Caribbean and Mexico, Bunzl Processor Division is an integral part of Bunzl Distribution Inc.

The Industry's Most Extensive Line of Flexible Packaging

Bunzl Processor Division's line of packaging supplies is comprised of the most recognized, trusted and valued brands in the industry. BPD offers our Clarity™ line of Cryovac® Shrink Bags and Clarity™ Rollstock Film for your forming and non-forming applications. Just call one of our packaging specialists and we'll do a no-charge, no-obligation review of your films. And if you choose BPD to be your supplier, we'll gladly stock all of your film sizes to reduce lead times and cost outlays for your business. Interested in Clarity™ Vacuum Pouches? BPD can produce any size bag you need – with lower costs, faster lead times and consistent, American-made quality. BPD also stocks a full line of meat bags, cook chill bags, poly bags and locker paper. Just give us a call for any of your packaging needs!

Customer Service From People Who Care

Bunzl Processor Division establishes close relationships with our vendors and because of this our representatives are experts on all the products that we sell — giving them a professional working knowledge of how these products best serve the food processing industry. Whether you have a rush order or need to arrange regular shipments, you can count on us for the friendliest, most dependable service. Our experienced team will answer your questions on pricing, product availability and any other technical questions you may have, as well as take your order.

We Stock What We Sell

Bunzl Processor Division is a leading distributor of plant operating supplies for the meat and food processing industry — offering such product categories as clothing, janitorial, sanitation, material handling, plant remodeling, safety, cutlery, scales, thermometers, processing supplies, seasonings, packaging as well as maintenance, repair and operation supplies (MRO). **Our inventory includes over 35,000 items**, so you don't have to wait long to receive the supplies you need. We are committed to getting your order shipped to you fast and complete — it's that simple!

Easy Order Placement

PHONE: Call **1-800-456-5624** Monday - Friday, 7 AM - 5:30 PM CST and a member of the industry's most knowledgeable staff will be happy to assist you.

También ofrecemos asistencia al cliente en español. Llame al **1-800-746-7990** para contactar a nuestro Departamento de Exportación o uno de nuestros representantes bilingües.

FAX: You can fax your order to **1-800-329-5624**.

ONLINE: Try out our convenient, easy-to-use online catalog. It has all your ordering needs in one place. Order online at **www.bunzlpd.com** 24/7. It's fast, easy and secure.

EMAIL: You can email your order anytime to **kochsupplies@bunzlusa.com**

Payment options are easy as well — charge your order to any Visa®, Master Card®, American Express® or Discover® card. In addition, we accept checks over the phone and open credit terms are also available.

Why 'Call for Pricing'? With product availability and costs fluctuating due to supply chain sourcing, you will see certain products displayed without a price in this Buyers Guide and instead are listed as Call for Pricing. On such items, please call our Customer Service team at 800-456-5624 or visit our website at www.bunzlpd.com where pricing is always up to date.

eDEALS 

eDEAL SIGN-UP FORM
AVAILABLE ON OUR WEBSITE.

Shop our website 24/7!
It's the best way to always find current pricing.

Our website will allow you to easily navigate through all of our key product categories and our search filters will allow you to narrow your product selection down by brand, price, product features and more!

Quick Order:

As a logged-in user, you can quickly and easily add products to your shopping cart if you know the item numbers you'd like to order. Simply select the 'Quick Order' link at the top of the home page.

Re-Order:

As a logged-in customer that has ordered before, you can easily re-order those same products, with a simple click of a button.

Product Comparison:

Having a tough time deciding between a few similar products? Our Product Comparison feature is here to help. Simply add the products you'd like to compare and then choose 'Compare', which allows you to see the products side-by-side.

Advanced Search/Navigation:

Our search filters help you narrow down your product selections to help you find what you're looking for easier and quicker than ever.

Favorites:

Logged-in users can choose to 'Favorite' a product, which will store it in your 'Favorites' ♥ list. This can be used to store frequently ordered products, so they are quick to find. It can also be used to mark products for future purchasing.

Product Reviews:

You can leave reviews on products you've purchased and tried out. You can also read reviews from other users to have a better idea how the product has been viewed by others who have tried it.

GO GREEN

ECO-FRIENDLY AND ENVIRONMENTALLY CONSCIOUS.

Enviro Terra™ Acid Replacement Cleaner

A totally natural cleaner that combines the high performance of acids with the mildness of liquid dish soap.

- Contains the same cleansing power of acids, without the unpleasant side effects such as skin burns and invisible toxic fumes.
- Effectively removes calcium, lime, rust and other deposits typically found in descaling and rust removal applications.
- Does not have to be shipped, handled, stored or disposed of as a hazardous material. In fact, it is biodegradable and non-corrosive.
- Special clinging action allows longer dwell time on vertical surfaces – easily cleaning complex surfaces like piping, valves and crevices without leaving film or residue.
- Perfect product for manufacturing equipment, building maintenance, food services and washrooms.
- Non-toxic, non-corrosive, non-fuming, non-caustic and non-flammable.

Safe on skin.

Can be applied with an industrial foamer.

PURFORT® FoodPro Steel Toe Boots

35% lighter than traditional rubber and PVC boots!

- Resistant to mineral, animal and vegetable oil, fats, blood, disinfectants and various chemicals.
- Highest slip resistant sole of any boot. Certified slip resistance (EN ISO 20345:2011 S4 CI SRC).
- Complies with CSA Z195-14 Omega, ASTM F2413-18 M/IC EH. • Steel toe cap for added safety.
- Remains flexible at low temperatures. • Shock-absorbing heel. • Sole designed for specific food processing areas.
- Five colors to reduce cross-contamination. • Seamed anti-bacterial lining. • 14-inch upper.
- Thermal insulation keeps feet warm in temperatures as low as -4 °F and comfortable in hot conditions.
- Extra smooth upper for easy cleaning. • Orthopaedic insole design for superior comfort.
- Energy absorbing heel for extra ergonomic support.

NOTE: Our boots can be ordered and worn by men or women. There is a two size difference between men's and women's sizes. A woman ordering a boot should order two sizes smaller than her regular size. Example: women's size 9 would order men's size 7.

PUROFORT® is the unique Dunlop® material with millions of evenly distributed air pockets making it light-weight and thermally insulating plus a cross-linked structure that provides flexibility and strength. The material is created using a special recipe at the time of manufacture, giving your Purofort® boots a "born on" date. This gives Purofort® boots their remarkable properties.

**Brown Boot
Only Available
at BPD!**

Unique feature allows boots to be locked together. (separate lock required)

GET A GRASP ON THE RIGHT GLOVE FOR YOU

Eliminate the guesswork when ordering gloves, just ask yourself the following questions:

What Size Gloves Should I Order?

This is very important, because a glove that is either too tight or too loose can be both uncomfortable and hazardous in the workplace.

GLOVE SIZE CHART

X-SMALL	SMALL	MEDIUM	LARGE	X-LARGE
6-7	7-8	8-9	9-10	10-11

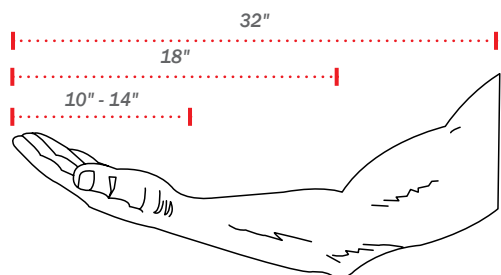

How to find your size:

Measure the widest part of your hand, starting above your thumb and measuring across the palm and around the back of your hand (see right). The size in inches corresponds to the size of the glove (i.e. if your hand measures 8 inches, then you should wear a size 8 glove).

Which Glove Length Should I Choose?

The length of glove you should order is directly related to the application for which it is to be used. Select glove length by determining the depth to which your arm will be immersed in liquids, or whether it is to be used for splash protection.

- **Wrist and Forearm Lengths (10" - 14")** – Protects the hand and wrist for most applications.
- **Elbow Lengths (18")** – Offers splash protection and immersion capability.
- **Shoulder Lengths (32")** – Ideal for full arm immersion applications.

Generally, the length of a glove is measured from the tip of the middle finger to the outer edge of the cuff.

What Types of Glove Cuffs Are Available?

There are five different types of cuffs from which to choose. Not all styles are available for every glove – the cuffs differ according to application.

Straight Cuff

Rolled Cuff

Pinked Cuff

Safety Cuff

Knit Wrist Cuff

The five most common cuff styles are:

- **Straight Cuff** – Offer a snug fit around the wrist.
- **Rolled Cuff** – Added protection to the skin from liquid and chemical run-off.
- **Pinked Cuff** – Used on knit-lined gloves to minimize raveling.
- **Safety Cuff** – A short, open cuff made from stiff material to provide added protection to the wrist area.
- **Knit Wrist Cuff** – Enhance warmth and provide a close fit to prevent debris from entering glove.

Do Glove Linings Make A Difference?

Linings make a difference in the comfort of the glove and they also have some added benefits that can be of value for certain applications.

- **Flock Lining** – Shredded cotton or synthetic fiber applied to the interior of the glove. Absorbs moisture making gloves easier to put on and remove.

Flock Lining

Knit Lining

Unlined

- **Knit Lining** – Cotton or synthetic material knitted to the interior of the glove. Knit linings absorb perspiration and makes gloves easy to put on and remove.
- **Unlined** – Offer superior tactile sensitivity and greater dexterity than lined. Unlined gloves with powdered interiors make them easier to put on and remove.

What Are My Options for Non-Waterproof Gloves?

Polyester/Cotton – Poly/cotton blends are commonly used in string knit gloves because of their comfort, durability and excellent laundering characteristics. By mixing polyester with cotton, shrinkage can be minimized.

Kevlar® – Kevlar is a man-made organic fiber developed for use in high performance applications. The par-aramid fiber has a high-resistance to cuts and slashes which makes it ideal for use in applications where sharp objects are being used. The high tensile strength and low weight of Kevlar makes it durable yet light-weight to wear. Kevlar is flame resistant, self-extinguishes and can be used in elevated temperatures.

Blended Kevlar/Cotton/Polyester – As gloves are knit, Kevlar is mechanically blended on the outside of the gloves to provide cut protection. Only a few Kevlar threads are woven into the cotton and polyester threads that are used on the inside to provide a very comfortable protective-glove material.

Leather – Leather is the hide, or skin of an animal. The most widely used leather for gloves is cowhide. Other leathers used are pigskin, goat skin and deerskin. Leather is used because it offers abrasion resistance, is flexible and allows air through its pores. Hides are processed in tanneries by applying chrome sulfate and bichromate of potash (the reason they are called “chrome tanned”) along with coloring agents. After processing, the hides are split. The durability of leather is in direct proportion to its thickness, not to its location on the animal.

Grain Leather – The leather is in the outer, or hair, side of the hide. It is split off the side or belly. Side grain has few cosmetic blemishes. It varies in thickness and is supple. The leather is generally used in garments. Belly grain are small hides that are consistent in thickness and have a good feel.

North® Nitri-Knit™ Supported Nitrile Coated Gloves

High performance supported nitrile gloves, excellent protection against solvents, caustics and animal fats.

- Complies with USDA and FDA regulations, 21 CFR, for use in food processing.
- Gloves will not swell, sag or weaken from fat absorption.
- Nitrile offers superior mechanical strength and outperforms supported natural rubber, neoprene and vinyl gloves when exposed to solvent, caustics and animal fats.
- True dip coated glove has a permanent bond of nitrile to inner-liner; won't peel apart.
- Pebble textured for added grip on wet or dry surfaces.
- Hand portion is treated with a permanent anti-bacterial and anti-mildew agent.
- Insulated versions recommended for temperatures from -10 °F to 300 °F (-23 °C to 149 °C).

NOTE: Order one size larger in this style of glove.

PROTECTS UP TO |300 °F|

Insulated gloves provide added protection for hot or cold applications. Recommended temperatures -10 °F to 300 °F.

DuraScrim™ 3-Piece Double-Coated PVC on Polyester Rainsuit

Jacket, overalls and detachable hood. 8-ounce material weight, 10.5 mil thick.

- Tear-resistant, open weave polyester scrim fabric is sandwiched between two layers of flame resistant PVC coating.
- Flame resistant self-extinguishing with flameout and afterglow less than or equal to 2 seconds after removal of ignition source. Test method ASTM D6413.
- Therm-O-Rad sealed seam construction for good chemical splash protection and 100% waterproof protection.
- Full cut shoulder with 90° sleeve to body angle for maximum freedom of movement.
- Storm fly front seals out wind, rain and contaminants.
- Non-conductive, non-corrosive snaps and buckles.
- Thicker outside coating for better abrasion resistance — lighter interior coating protects fabric from chemical contamination.

TINGLEY

Detachable hood.

Therm-O-Rad sealed seams.

Storm fly front.

A HANDLE FOR EVERY APPLICATION

Which Handle Should I Order?

Tapered handles fit most squeegees. Threaded handles fit scrub brushes, push brooms and some squeegees. The handles we list with these products on the following pages, are only our recommendation.

NEED HELP? Call one of our Customer Service Representatives for additional information, or to find out about other types of handles not shown.

Remco Lobby Dust Pan and Broom

Made especially for food processing facilities — no hard angles that could trap food residue or bacteria and can be easily disassembled and reassembled for regular washing and sanitizing.

- The 37-inch handle prevents back pain that stems from leaning over shorter dustpans.
- Large, 7-inch x 14-inch bin allows for big and small cleanup jobs.
- High-tension hinge lock holds pan open for easy usage and is activated by pushing the dustpan handle back until the lock clicks into place.
- Hanging holes allow the tools to be hung from any hook-based storage rack.
- Grips provide enhanced handling. • FDA-compliant materials.

Quickly store the accompanying broom in the fitted capture located on the dustpan lid.

PUSH BROOMS AND SWEEPS

Microfiber™ Cleaning System

Microfiber material dries faster and more thoroughly than common rags and rag mops — reducing the potential for encouraging bacterial, mold and mildew growth.

A. Wet Mop Pad

- Greater surface contact eliminates the need to mop the same area over and over.
- Special looped-end fibers glide over floors for easier mopping, no linting.
- Available in two sizes: 18 inch or 24 inch.

B. Dry Mop Pad

- Ribbed center mat attracts and holds dust like a magnet.
- Large looped fringe keeps dust from flying; grabs larger particles and debris.
- Unique design polishes hardwood, marble, terrazzo and other smooth surfaces as you dust.
- Available in two sizes: 18 inch or 24 inch.

C. Aluminum Heads

- For use with wet or dry microfiber floor pads.
- Heavy-duty aluminum construction.
- Triple riveted VELCRO® for durability.

D. Telescoping Aluminum Handle

- Designed for use with aluminum mop head shown above.
- Handle extends from 40 to 70 inches.

▶ 12 PER CASE.

J-Fill® QuattroSelect® Dispensing System

Wall-mounted dispensing system that accurately dispenses four different products into bottles or buckets. This system is safer, more reliable and more accurate than any other chemical dispensing platform in the industry.

- Simple bottle installation. Simply select four cleaning products from the list below.
- One-handed low flow bottle filling, or use the hose to fill a bucket.
- Remote high flow bucket/autoscrubber fill gun. • SmartValve™ product selection.
- No metering tip installation — bottles come pre-tipped to ensure dilution accuracy and cost control.
- Easy to repair, quick change manifold. • Powder-coated locking steel doors to prevent misuse.
- Product identification windows. • Drip tray with drain hose.
- Meets ASSE 1055-B back-flow prevention requirements.

- Unit Dimensions: 24-1/4 inches H x 18-1/2 inches W x 7-1/2 inches D.
- Weight: 15 pounds.
- Low Flow Rate: 1.5 gpm.
- High Flow Rate: 3.1 gpm.
- Water In-Let Hose: 4 feet.
- Remote Bucket Fill Hose: 8 feet.
- Drip Tray Drainage Hose: 8 feet.
- Water Pressure: 30-85 psi.
- Water Flow: Less than 2.0 gpm.
- Water Temperature: 50-100 °F.

Simple installation.

Remote high flow bucket/autoscrubber fill gun.

SmartValve™ product selection.

Low flow bottle filling option.

Enviro Terra™ Acid Replacement Cleaner

A totally natural cleaner that combines the high performance of acids with the mildness of liquid dish soap.

- Same cleansing power of acids, without the unpleasant side effects such as skin burns and invisible toxic fumes.
- Effectively removes calcium, lime, rust and other deposits typically found in descaling and rust removal applications.
- Special clinging action allows longer dwell time on vertical surfaces – easily cleaning complex surfaces like piping, valves and crevices without leaving film or residue.
- Perfect product for manufacturing equipment, building maintenance, food services and washrooms.
- Not classified as a hazardous material. In fact, it is biodegradable.
- Non-toxic, non-corrosive, non-fuming, non-caustic and non-flammable.

Penny dipped in Enviro Terra for less than 30 seconds. No scrubbing!

Safe on skin!

CHEMICAL INFORMATION

pH, pH (Neat)

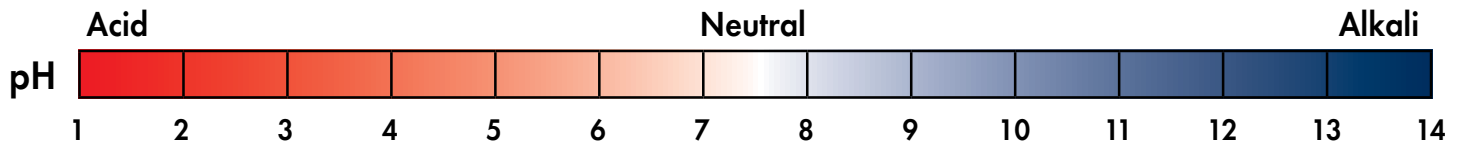

pH is a measure of the acidity or alkalinity of an aqueous solution. Solutions with a pH less than 7 are considered acidic and solutions with a pH greater than 7 are considered to be alkaline or basic. Neat refers to a solution that is undiluted from its concentrated form.

Cationic

Refers to a solution that has greater protons than electrons resulting in a positive charge. Cationic sanitizers are self-foaming and generally used for external or environmental sanitizing.

Solvent Cleaner

Solvent cleaners are used in conjunction or as a replacement for alkaline cleaners. Solvent cleaners are good for removing oils, fats, resins and glues in the food industry.

CHEMICALS: PRODUCTION AREAS

Chemical Color Code System: ●●●●●●

- **ACIDIC** — A solution that has a pH less than 7. Acidic solutions in the sanitation industry are used to remove organic soils such as mineral and scale deposits and returning shine or luster to stainless steel surfaces.
- **ALKALINE** — A solution that has a pH greater than 7. Alkaline solutions in the sanitation industry are used to remove soils such as fats, greases and proteins.
- **CHLORINATED** — Chemicals that contain sodium hypochlorite (NaOCl). This compound is contained in sanitation chemicals to remove protein soils.
- **CAUSTIC** — Caustics typically refer to cleaning chemicals that contain sodium hydroxide. These chemicals have a very high pH and are used for heavy-duty cleaning applications such as CIP, smokehouses, etc.
- **QUATERNARY** — Refers to a particular type of sanitizer containing ammonium chloride. Quat sanitizers are self-foaming and provide a bacteriostatic residual film which provides microbial defense for a period of time after it has been applied to an equipment surface.
- **MILD** — Refers to products that are a neutral pH chemical.

NSF RATING CODES

CODE	APPLICATION	CODE	APPLICATION
A1	General cleaning agents for all surfaces and areas.	D2	Partial immersion: Designed for areas with limited space. Subject to outside temperature variables.
A3	Acid Cleaners for all departments.	L2	Enzymatic compounds for use in sewer and/or drain lines.
A4	Floor and wall cleaners for use in all areas.	E1	Odorless hand washing or sanitizing compounds requiring rinse with potable water after use.
A5	Floor and wall cleaners for subfreezing temps.	E2	One step hand washing or sanitizing compounds requiring rinse with potable water after use.
A7	Metal polishes – non-food contact	E3	Hand sanitizing compounds. No rinse required after use.
A8	Degreaser and Carbon Remover for cooking and smoking equipment and related surfaces.	E4	Hand creams, lotions and cleansers. Use only when leaving plant.
B1	Laundry products – food contact.

Vikan® Spray Gun

By applying a variable amount of tension on the rubber insulated trigger, the user can control the pressure of the water jet.

- Suitable for many cleaning applications including rinsing off work surfaces and walls after chemical foaming.
- The water jet can also be adjusted using the screw at the end of gun.
- An arrow on the water gun indicates the spray direction of the water jet.
- 5-7/10 inches L x 7-1/10 inches W x 2-1/4 inches H.
- Maximum Temperature: 203 °F. • Rubber on brass/stainless steel body.

Hot Water Packinghouse Hose

Multiple textile spirals reinforces hose and extends hose life. FREE WITH THIS HOSE — rubber insulators that keep the hose cool to the touch.

- Couplings are securely attached to each end of the hose with no sharp edges and are covered by a heavy-duty reinforcement insulator to prevent failure at the base of the hose and to keep the ends cool to the touch.
- Hose assemblies are pre coupled with garden hose couplings on each end. • Withstands 500 psi.
- Withstands temperatures up to 212 °F. • Highly-resistant to cuts and abrasions.
- Available in 3/4 inch ID and 1/2 inch ID.

FREE rubber insulator keeps hose cool to the touch.

Double braided nylon reinforced.

Long John Safety Air Gun

- Air gun blows air to safely clean inaccessible and hard-to-reach areas.
- Efficient nozzle boosts thrust up to 200% over conventional air guns.
- Limits static pressure to less than 30 psi should the tip become blocked.
- Ergonomic pistol-grip handle provides maximum user comfort.
- Body constructed of durable cast aluminum. • Meets OSHA standards.
- Zinc alloy nozzle has a 1/4-inch FNPT inlet. • Air usage: 34 cfm.
- Output thrust: 2 pounds. • Noise level: 107 dB.

Cam Spray Indoor*/Outdoor Cold Water Pressure Washers

A. X Cart Cold Water Pressure Washer

High-pressure dependability and portability.

- Maximum temperature: 160 °F.
- Industrial coated steel frame with 10-inch tires.
- Fully enclosed 7.5 hp motor rated at 3,000 psi; 4 gpm.
- Triplex plunger pump, ceramic plungers and stainless steel valves.
- Low pressure chemical injection for application of concentrate liquid detergents and is activated by using the low pressure detergent nozzle.
- 35-foot power cord with ground fault circuit interrupter.
- 37 inches x 23-1/2 inches x 36 inches.
- Shipping weight: 265 pounds.
- 50-foot pressure hose.

B. Hand Carry Cold Water Pressure Washer

High-pressure dependability and easy maintenance.

- Fully enclosed 2.0 hp motor rated at 1,450 psi; 2 gpm.
- 2-piece gun/wand with variable pattern tip, 0-60° spray pattern.
- Triplex plunger pump, ceramic plungers and stainless steel valves.
- Variable pressure adjustment, low-pressure chemical injection for application of concentrated liquid detergents and is activated by a hi-low pressure adjustable nozzle on the trigger gun.
- 35-foot power cord with ground fault circuit interrupter.
- Maximum temperature: 160 °F.
- 18 inches x 12 inches x 11 inches.
- Shipping weight: 68 pounds.
- 25-foot pressure hose.

3-Gallon Pump-Up Foamer

A portable foam applicator for applying foaming chemicals to any surface

- Creates rich, clinging foam that adheres to surfaces longer to maximize chemical effectiveness.
- Projects the ideal amount of foam for small or large jobs requiring maximum portability.
- Fill the tank with ready-to-use chemical solution, pump it up and foam.
- Use the "quick change" valve to pressurize with an air compressor instead of pumping (must disconnect airline during operation).
- Heavy-duty, easy-grip trigger gun with locking latch.
- Wide fan pattern nozzle for fast application.
- Stainless steel nozzle, 1/4 inch.
- Requirements: Ready-to-use chemical solution. Temperature up to 120 °F. Accepts compressed air up to 45 PSI.

Includes:

- Heavy-Duty 3-Gallon Polyethylene Tank with UV Inhibitor
- Tank Stabilizing Base
- Heavy-Duty Manual Pump
- Viton/Nitrile Seals and O-Rings
- Tube of Silicone Grease
- Pressure Relief Valve
- Compressed Air "Quick Charge" Valve
- Machined Foamer Body
- 6-foot Discharge Hose
- Heavy-Duty Trigger Gun with Viton Internal Seals
- Polypropylene 10" Wand and Stainless Steel Fan Nozzle

NSF "E" CATEGORY CODES

Good Manufacturing Practices dictate that these products are to be located a sufficient distance from the processing line and placed in satisfactory dispensers to preclude accidental food product contamination.

CODE	DESCRIPTION	REQUIREMENTS
E1	Handwashing Products	<ul style="list-style-type: none"> Approved for use throughout the plant. After use, hands must be thoroughly rinsed with potable water. Hands need not be washed prior to using. Use with PURELL® E3 Rated Instant Hand Sanitizer prior to handling food.
E2	One-Step Handwashing and Sanitizing Products	<ul style="list-style-type: none"> Approved for use throughout the plant. Approved for hand/food contact after handwashing. Hands need not be washed prior to using. After use, hands must be thoroughly rinsed with potable water.
E3	Hand Sanitizing Products	<ul style="list-style-type: none"> Approved for use throughout the plant. Approved for hand/food contact after handwashing. Hands must be washed and thoroughly rinsed prior to using. Hands need not be rinsed with potable water following use. For use in combination with GOJO® E2 Foam Handwash.
E4	Hand Creams, Lotions and Cleansers	<ul style="list-style-type: none"> Use in federally inspected meat and poultry plants is limited to: toilets, dressing rooms and non-processing areas. Employees who process inspected meat, fish and poultry products should use only when leaving the plant.

Alpet E3 Plus Waterless Hand Sanitizer

Reduces bacteria on hands or gloves when used as directed. Meets all current FDA requirements for hand sanitizers in food handling environments.

- Approved E3 alcohol rinse sanitizer allows worker to directly touch meat after use.
- Formulated with emollients to soften and improve skin condition.
- Kills 99.9999% (LOG6) of 26 tested pathogens in 15 seconds (including Staphylococcus Aureus, Listeria monocytogenes, Escherichia coli, E. coli O157:H7 and more).
- Meets HACCP guidelines for consistent measurable results.
- Reduces the risk of cross contamination. • Kosher certified.

ATOMIZATION - The CDC says that 40% to 50% of pathogens on the hands are on the nails and cuticles, where most hand washing misses. Atomized sanitizers saturate the nails and cuticles, with a consistent amount of sanitizer each time it is used.

NOTE: Spray pump, bottle and atomizer pump sold separately.

Scan this QR code with your mobile device to watch a video about Alpet E3 Sanitizer usage and benefits.

or more from **THIS BUYERS GUIDE!**

*FREE SHIPPING does NOT include UPS Next Day Air, UPS 2nd Day or UPS 3rd Day Select. Certain items may not qualify. This offer is good only on orders shipped UPS Ground in the 48 contiguous states. Based on dimensional weight, we will determine the most efficient means of shipment, either UPS or LTL. Products may ship by truckline.

Foot And Knee Pedal Valves

Certified NSF/ANSI 372 low-lead and NSF/ANSI Standard 2 Food Equipment.

- Start and stop the flow of water “hands-free” by pressing a foot or knee pedal to start the flow of water and release to stop the flow.
- Ideal for use in the food service industries. • Cast brass with stainless steel springs, pedals, bolts and nuts.
- Self-closing foot-operated valves eliminate the possibility of contamination from germ laden or dirty faucets.
- All valves are tested at 150 psi after assembly. • Lift-up pedals make for easy cleaning.

ChillTote™ Trays

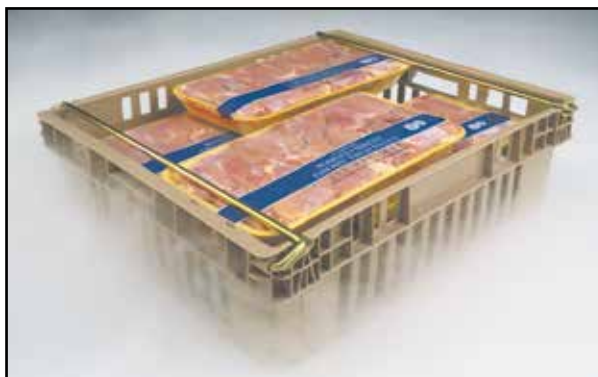

- ChillTotes™ fit four-up on standard 42-inch x 48-inch pallets.
- Light-weight freezer proof, stackable/nestable and easy to clean.
- Flow-thru basket design allows maximum air circulation for faster, more efficient freezing.
- Heavy ribs on bottoms of trays prevent the contents of upper and lower trays from freezing together.
- Injection molded from high-density polyethylene to withstand constant freezer temperatures without cracking or warping.
- Capacity: Standard: 1.4 cubic feet, 50 pounds.; Deep: 2.9 cubic feet, 75 pounds.

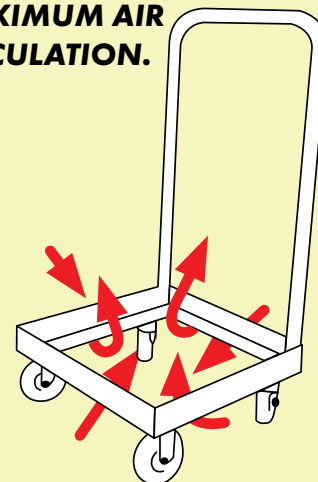

Two 3/8 inch zinc-plated steel wire bails swing down to allow nesting and swing up for stacking.

NOTE: Maximize your freezer space and eliminate basket shelving by using ChillTote™ aluminum transport dollies. SEE BELOW.

Super Pan V[®] Steam Table Pans

- Pans are constructed of 22-gauge stainless steel to resist rust and corrosion.
- Reinforcer[®] corners won't bend and will withstand more impact than ordinary pans.
- Coved corners make scooping easier and allow for easy clean-up.
- Anti-jamming design keeps pans from sticking together when stored.
- Flat edges keep pans tight in steam table well to seal in heat.
- Optional covers have reinforced edges and fit securely to prevent spills during transport.

Scoop hook to make scoop easily accessible.

Scoop handle is held out of ingredient bin preventing cross-contamination.

Snap fit secures to base to make handling easier.

3-inch casters.

ProSave™ Ingredient System

Increase productivity, improve food safety and decrease supply costs.

- Scoop hook allows the scoop to be stored inside the bin and out of the product for quick access to each ingredient.
- By holding the scoop handle and securing it to the hook, hands do not touch the ingredients and the risk of cross-contamination is decreased.
- Integrated sliding lid for one handed access.
- See-thru lid slides along easy-glide track, to open.
- Assists in complying with FDA Food Code 30304.12.
- First in, first out (FIFO) fill compartment.

Rotating clear lid fits on 10-, 20-, or 32-gallon round containers (sold separately).

Scoop included and is easily stored inside. 10-gallon lid includes 2-cup scoop. 20-gallon lid includes 3-cup scoop. 32-gallon lid includes 4-cup scoop.

Aluminum Stock Truck

Transport heavy loads from back room to sales floor.

- All-aluminum truck is light-weight and easy to maneuver, yet sturdy enough to let you load heavy boxes.
- Unit fits down most aisles, rounded front protects walls.
- Folds compactly to store conveniently and safely.
- Six heavy-duty casters.
- Shipping weight: 50 pounds.

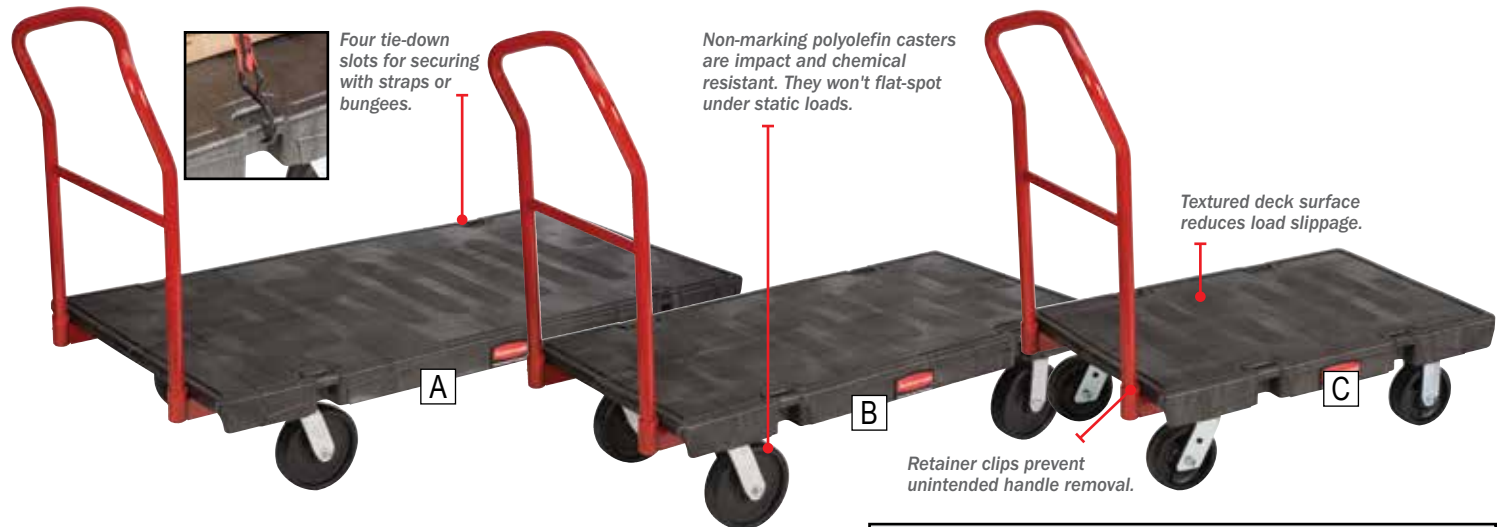

ITEM NO.	PRODUCT	DIMENSIONS	CAPACITY	EACH
3775 3796	Aluminum Stock Truck	63-1/2" x 18" x 62"	1,500 lb	\$669.76

Heavy-Duty Platform Trucks

Ideal for moving large, heavy, oversized loads in a variety of environments.

- Exclusive, precision-engineered resin and metal composite structure provides maximum load support.
- Non-marking polyolefin casters are impact and chemical resistant and won't flat-spot under static loads.
- Powder-coated steel creates a hard finish that is tougher than conventional paint. • Textured deck surface reduces load slippage.
- Perimeter deck channel retains small items. • Variable grip-height improves control and worker safety.
- Retainer clips prevent unintended handle removal.

Slipsheets

Designed to supplement wood pallets in transportation and warehouse applications — reduce unloading time by 50%!

- Choose from: laminated, patterned top surface (A) or dimpled top surface from sliding (B).
- High-density polyethylene slipsheets are resistant to moisture, chemicals, heat and cold.
- Maintains strength and integrity even when wet.
- Bottom surface allows the sheet to slide more easily for enhanced handling.
- Manufactured from recycled plastic. • 100% recyclable. • Color: black.

THE SECRET Behind the Strength

- 3-wire truss all-welded design makes it a dozen times stronger than a solid steel truss of the same weight.

EASY, NO-TOOLS ASSEMBLY!

- Screw the post together, snap the sleeve onto the desired indexing groove and drop the shelf's collar over it.

- Numbered posts for easy assembly.

- Adjust shelves at 1 inch increments along the entire length of the post.

- Combine different depth shelves to jog around wall protrusions, run-around corners, etc.

- Connect multiple units together with our "S" clips for increased rigidity and storage space.

LEVELING IS A BREEZE!

- Level with just a twist of the wrist.

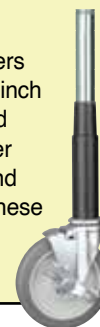

- Adjust loaded shelves with an open-end wrench.

- For mobility, replace the levelers with a caster kit.

- Leveling bolt: 3/8" x 16 tpi.

CASTER KIT

Move your shelving easily by replacing levelers with casters. Each caster kit contains four, 5-inch casters (2 with locks and 2 without locks) and four easy-to-install adapter sleeves that better reinforce the legs of the shelving structure and allow the casters to fit securely over them. These unique sleeves keep the legs from bending on loads totaling up to 500 pounds.

- Optional stainless frame is constructed of 1-inch tubing with four, 5-inch swivel casters, 2 with brakes.
- Frame adds mobility and includes stainless undershelf for storage.
- Shipping Weight: 40 pounds.

Desktop locks to allow for document storage. Includes two keys.

Space saver desk includes wall mounting brackets.

Add optional legs and casters to turn unit into a convenient all-around desk.

ITEM NO.	PRODUCT	DIMENSIONS	EACH
2990 2101	Wall Mount Desk	24" x 23" x 12"	\$848.45
2990 2102	Optional Mobile Frame with Caster Set.	23" x 25" x 35-1/2"	576.40

Stainless Steel Stool

- 14-inch square seat with rounded corners fabricated from heavy-duty T-304 Stainless steel.
- Fully welded angle stainless steel legs and foot support.
- Corrosion-resistant stool is capable of withstanding wet, harsh and demanding environments.
- Overall height: 30 inches.

ITEM NO.	PRODUCT	EACH
2990 0195	Stainless Steel Stool	\$764.40

Aluminum Knockdown Tables

- Knockdown aluminum tables will not rust.
- All tables have an I-under brace for additional support.
- Optional undershelf nests on the frame below the table for convenient storage.
- Optional overshelf allows you to place objects up and out of the way.

BUILD YOUR OWN ALUMINUM KNOCKDOWN TABLE

Choose from three sizes of either a poly or a stainless steel top, and then add your options.

1. Choose your TYPE of table:

- Aluminum Table with Stainless Steel Top.
- Aluminum Table with Stainless Steel Top and Backsplash.
- Aluminum Table with Poly Top.
- Aluminum Table with Poly Top and Backsplash.

2. Choose the LENGTH of table:

- 48 inches.
- 72 inches.
- 96 inches.

3. Choose one or both OPTIONS:

- Stainless Steel Undershelf.
- Stainless Steel Overshelf.

NOW, look below at the ordering information box and determine which Product Numbers match the table you have built.

Knockdown Table with Poly Top

Poly tops come in multiple pieces for ease of handling.

ITEM NO.	SIZE	EACH
2990 3254	For 72" Tables	\$13.50

BUILD YOUR OWN STAINLESS STEEL WORK TABLE

1. Start with a "Rock Solid" stainless frame:

- Unique design yields a table which is remarkably rigid front-to-back and side-to-side, yet flexible along its length to twist to accommodate uneven floors. Even with a one inch block under one leg, all legs make solid contact with the floor and the table won't wobble or shake, (see inset). The key is the oversized, welded gussets. Legs are adjustable to level the table.
- Available in 72 or 96 inch lengths x 30 inches deep.

2. Choose from a split-poly or full stainless steel work top

- No tools needed to install either top. Stainless steel clips hold poly top in place. Or, remove the clips and install the full stainless top in minutes. To comply with USDA regulations, the poly top is only available as a two-piece unit.
- 96 inches L x 30 inches D x 34 inches H.

3. Customize to suit your specific needs:

- Stainless Steel Shelf Kit. • Stainless Steel Backsplash. • Caster Kit.

A. Lower Stainless Shelf Kits

Fully adjustable stainless steel shelf. Shelf removes easily from clips for washdown, no tools needed.

ITEM NO.	SIZE	SHIPPING WT.	F.O.B. FACTORY EACH
2990 3250	For 72" Tables	40 lb.	\$761.20
2990 3251	For 96" Tables	55 lb.	922.80

B. Backsplash (for Poly Tables)

Backsplash is available for use with poly top tables.

ITEM NO.	SIZE	SHIPPING WT.	F.O.B. FACTORY EACH
2990 3248	For 72" Tables	13 lb.	\$355.90
2990 3249	For 96" Tables	15 lb.	387.40

C. Caster Kits

Add mobility with 5 inch diameter casters. Wheels lock at all four corners for stability while working.

ITEM NO.	SIZE	EACH
2990 3255	For 72" Tables (4 Locking Casters)	\$174.35
2990 3256	For 96" Tables (4 Lock, 2 Std.)	233.05

Stainless Steel Knockdown Table

- Available in three lengths with or without a 6-inch stainless steel backsplash and undershelf.
- 16-gauge, Type 304 stainless steel work surface, legs and rails.
- 12-gauge galvanized steel table channels provide maximum stability.
- Ships knocked-down with easy assembly — assembly hardware is included.

Optional 6-inch backsplash available.

Table ships knocked-down.

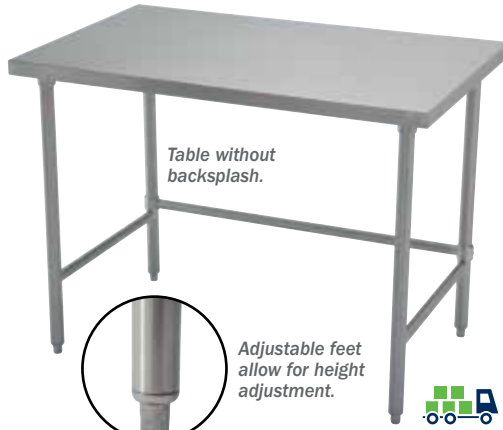

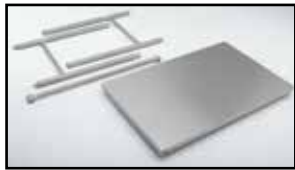

Table without backsplash.

Adjustable feet allow for height adjustment.

Stainless Steel Mini Stuffing Table

- Working surface is crafted from heavy 14-gauge T-304 seamless stainless steel. Rustproof, corrosion resistant and is easy to clean.
- Legs are constructed with 16-gauge polished round stainless steel 1-5/8 inch diameter and with sturdy rigid-truss cross supports.
- Feet and legs allow up to 5 inches of over all height adjustment.
- Ships knocked-down with easy assembly.
- Work surface measures 33 inches deep x 57 inches long and features a slope to a 2-inch sink-type drain and has 1-1/2-inch formed top retaining edges.
- Table is extremely versatile and may be ordered with the Operator Notch section located on either side of the table.

Slope with 2-inch sink-type drain.

ITEM NO.	DIMENSIONS	EACH
2990 1030	33-1/10" x 57-1/10" x 28" to 33"	\$2,012.70

Stainless Steel Stand Alone Table

- Designed for food preparation facilities, kitchens and restaurants.
- Heavy-duty 14-gauge T-304 stainless steel with all welded construction makes them ideal as stand-alone equipment stand or to be placed where additional work space is needed.
- Features a full size middle storage shelf and all welded construction.
- This unit is suitable for wet or harsh environments and is easy to clean.
- Equipped with adjustable bullet style feet for easy leveling.
- Dimensions: 24 inches L x 20 inches W x 30 inches H.

Compact sized table can be used for small kitchen equipment.

NOTE: Arrives FULLY ASSEMBLED!

ITEM NO.	PRODUCT	EACH
2990 1127	SS Stand Alone Table	\$660.50

24-Inch x 30-Inch Aluminum Knock Down Table with Poly Top

- Made with heavy-duty aluminum frame.
- Includes four non-locking 4-inch casters.
- Available with or without 6-inch backsplash.

NOTE: 50 pound capacity tote INCLUDED!

2510 3502	Poly Top Table w/Tote and 6" Backsplash		759.95

HOW TO CALCULATE REPLACEMENT CUTTING BOARDS

1. Measure length and width in inches.
2. Multiply length x width for total square inches.
3. Divide total square inches by 144.
4. Round calculation up to the nearest foot.
5. Take that number x price per square foot.

$L \times W = \text{Total Square Inches}$

Example:

1. Board desired is 13 inches W x 76 inches L.
2. 13 inches x 76 inches = 988 square feet.
3. 988 divided by 144 = 6.86
4. Round 6.86 up to nearest foot = 7
5. Take 7 x price of board per square foot = Total price

We recommend boards no larger than 18 inches W x 5 feet L, removable for cleaning by a single worker.

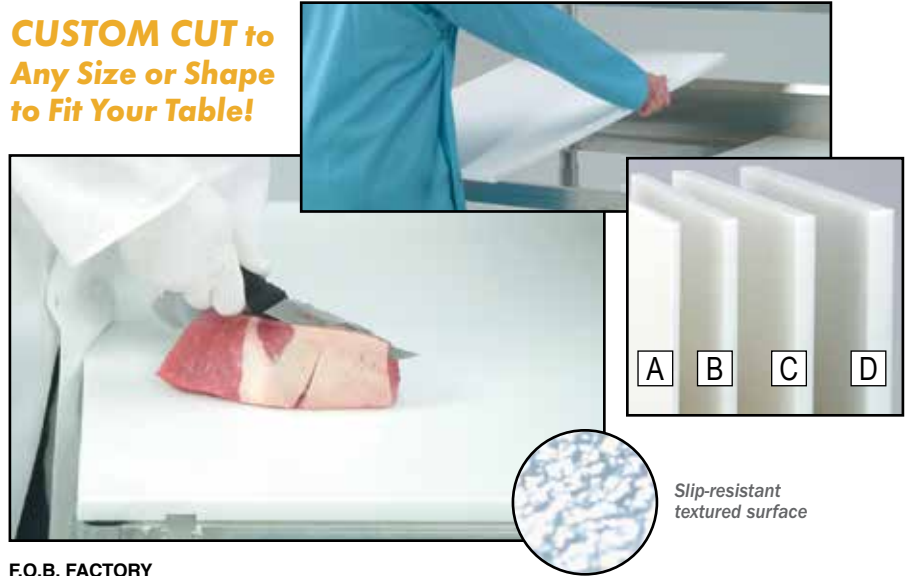

Sanatec® Poly Cutting Board Table Tops

An economical alternative to wood surfaces.

- Made of sanitary polyethylene with a reversible slip-resistant pebble finish that won't dull knives.
- Surface will not absorb odors – clean with soap and water.
- Select from four thicknesses, sold per square foot.

0844 0006	For 6" Wheel	11.55

NOTE: Not to be used with the Economy Plated Casters shown on facing page.

Economy Plated Casters

Zinc plated steel frames.

- Heavy-duty king pins.
- All swivels have double bearing raceways.
- Type I wheels for medium-duty applications.
- Type II wheels for heaviest loads and constant swiveling.
- Delrin bushing.

Type I shown without greaseable axle.

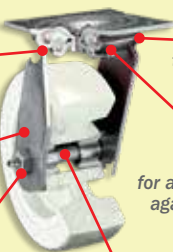

NOTE: See diagram to choose caster top plate needed.

STAINLESS STEEL TYPE II CASTER

Dual ball bearing raceways are stainless to withstand harsh environments.

Formed stainless caster forks are welded to lower raceway for maximum service.

Replaceable zerk fitting makes routine maintenance easy.

Upper and lower raceways are sealed with neoprene rubber to keep lubricant in and contaminants out.

Large king pin for added strength. Protects against impact and abuse.

Stainless spanners do not require lubrication.

Stainless Steel Casters

Resists rust and corrosion.

- Casters with poly wheels designed specifically to withstand constant use in harsh, corrosive wet environments.
- Whatever your application, we have the caster and wheel to fit it – in stock and ready to ship!
- Call today to discuss your specific corrosive applications.

NOTE: See diagram to choose caster top plate needed.

Zerk fitting makes routine maintenance easy.

Heavy-Duty Plate Style Casters

- Swivel Casters — Formed legs are continuously welded, 1/4-inch steel top plate is cold forged and heat treated to relieve stress and add strength.
- Main Load Bearing — Fully hardened ball bearings in a hardened raceway.
- Thrust Bearing — Large diameter hardened ball bearings roll freely in a hardened raceway.
- Lube Fittings — Provided for both swivel and wheel bearings (for rubber wheels only).
- King Pin coined and stress relieved — Holds raceways precisely in alignment.
- Finish — Corrosion-resistant zinc. • 3/8-inch attached bolt.

Mold-On Rubber Wheels

- For use in warehouse environments where floor protection and noise reduction are required.
- Soft rubber tread rolls over floor joints and small obstructions quietly and smoothly.
- Cushioned rubber tread permanently vulcanized to cast iron cores.
- Recommended for quiet movement with medium to heavy loads or where cushioning load is required.
- Zerk fitting in hub. • Temperature range: -30 °F to 160 °F.

Polyurethane on Polyolefin Wheels

- Offers the same long wearing tread characteristics as polyurethane on steel or aluminum cores.
- Well suited for wet environments with delrin bearings.
- Resists chemicals, caustics, acids and oils.
- Composed of polyurethane tread mechanically and chemically bonded to a polyolefin core.
- Quiet rolling yet good load capacity.
- Temperature range: -40 °F to 180 °F.
- Not to be used where possibility for shock or high-impact exists.

Polyurethane 6-Inch Wheels

Lasts 10 times longer than standard wheels.

- Non marking. • Quiet rolling with ball bearings.
- Temperature range: -50 °F to 180 °F.
- Requires minimum maintenance when installed with stainless bushings and zerk axle.

Sockets for Round and Square Tubing

Patented reinforced thermoplastic design.

- Sockets will not loosen or wear.
- Use with Grip-Ring style stems — fits 7/16 inch stems up to 1-1/2 inches long.

MADE IN USA

Sockets create snug fit for securing standard grip ring casters.

For use with 7/16-inch grip ring style stem casters.

Vikan® Threaded Handle Scrapers

Threaded grip enables any Vikan color-coded handle to be screwed into the grips, which allows cleaning of difficult to reach areas.

- Slightly rounded blade corners prevent damage to the surface being cleaned and operator injury.
- Stainless steel scraper is suitable for removing stubborn debris.
- Nylon blade is suitable for loosening stubborn debris on smooth surfaces and sensitive equipment.
- Nylon blade can withstand hot surfaces when used at intervals of no more than 2 minutes at a time.

NOTE: Can be used with Vikan® European-thread handle, sold separately. SEE BELOW.

Sqwincher is one of the most cost-effective ways of increasing productivity, while helping lower the number of workplace accidents. Just like hard-working machinery, bodies need fuel. And to ensure peak performance, your employees need fuel that works as hard as they do, with a taste that keeps them revved up for more. Research shows that a high number of work-related accidents are attributed to “bad judgment” or failure of safety equipment, when, in fact, heat stress and fatigue may actually be the cause. Stop heat stress before it starts.

MAXIMIZE EMPLOYEE PRODUCTIVITY in Hot Environments.

Sqwincher is focused on the INDUSTRIAL ATHLETE who is performing in extreme conditions for 8-12 hours, 5 to 7 days a week. Contains 50% less sodium and 50% more potassium than other sports drinks.

Powder Pack™, 2-1/2 Gallons

Grip Tight™ Circuit Breaker Lockouts

Offers superior holding power with just a simple thumb turn and clamping handle.

- Two styles from which to choose: one for standard single and double breaker toggles, the other for tall and wide breaker toggles.
- Narrow profile permits side-by-side breaker lockout.
- Constructed of powder-coated steel and reinforced polymer to operate in harsh conditions.

A
Use with standard single and double toggles.

B
Use with tall and wide toggles.

ITEM NO.	PRODUCT	EACH
3198 04931	A. For Standard Single and Double Toggles	\$7.75
3198 04911	B. For Tall and Wide Toggles	12.85

Self Laminating Photo ID Safety Tag

- Provides a visual representation of the authorized employee.
- 3/8 inch diameter brass grommet accepts all Master Lock and American Lock safety padlocks and hasps.
- Complies with OSHA lockout/tagout standard.
- Durable construction withstands over 50 pounds of force.
- Durable laminate overlay resists water, grease, extreme temperatures and common industrial chemicals.
- Customize with name, department and employee specific photo ID.
- Size: 3-1/5 inches x 5-4/5 inches.

Standard Group Lock Box

Standard ammo-box style is constructed of secure heavy-duty steel.

- Accommodates up to 12 workers, more with the use of lockout hasps.

ITEM NO.	PRODUCT	DIMENSIONS	EACH
3198 0498	Group Lock Box	9-1/4" x 3-3/4" x 6"	\$82.85

Latch Tight™ Group Lock Box

Latch-Tight™ feature eliminates all gaps to ensure keys can not be accessed until the very last lock is removed.

- Can be used as traditional bulk key storage through the key slot, or each of the 12 key holders can be labeled to determine which key opens which lockout point.
- Powder-coated red finish on heavy-duty steel box and stainless steel handle withstand harsh environments.
- Can be wall-mounted or used as a portable unit. • Accommodates up to 14 workers.

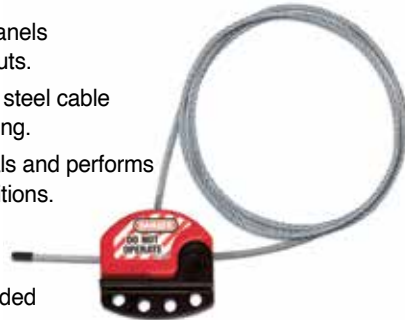

ITEM NO.	PRODUCT	DIMENSIONS	EACH
3198 0503	Group Lock Box	6-2/5" x 12-3/4"	\$88.95

Adjustable Cable Lockout

Six foot, pull-tight cable easily adjusts for a secure fit every time. Simply feed the cable through the points to be locked out and then back through the lockout body, then cinch it tight.

- Ideal for multiple circuit breaker panels and side-by-side gate valve lockouts.
- Multi-stranded 5/32 inch diameter steel cable is insulated with a clear vinyl coating.
- Lockout body withstands chemicals and performs well in extreme temperature conditions.
- Up to four workers can apply their personal safety locks.
- Write-on/erase-off labels are included for worker identification.

ITEM NO.	PRODUCT	EACH
3198 08061	Adjustable Cable Lockout w/6' Cable	\$36.85

"Do Not Operate" Lockout Hasp

Fits more lockout points than rivet-hinge labeled hasps.

- Snap-on, spring-loaded locking arm attaches with one hand to switches and controls.
- Inside jaw diameter: 1-3/4 inches x 2-1/8-inches.
- Aluminum and stainless steel construction.
- Write-on/erase-off labels are included for worker identification.

NOTE: Metal detectable version also available. CALL FOR MORE INFORMATION.

Faucet-Mounted Eye Wash

Converts any faucet into an emergency eye wash station without interfering with normal faucet operation.

- Aerated outlet heads deliver a soft, continuous flow of water.
- Float-off dust covers protect outlet heads.
- Adjustable heads permit full coverage and avoid splashing.
- Turn on water and pull knob to activate.
- 55/64 inch - 27 female thread inlet comes with 3 adapters (15/16-inch - 27, 13/16-inch -27 and 3/8-inch IPS) for installation on most commonly used faucets.
- Meets ANSI Z358.1- 2014 Classified Personal.

ITEM NO.	PRODUCT	EACH
B731 01021	Faucet-Mounted Eye Wash	\$124.60
B731 03071	Replacement Float-Off Dust Covers (Package of 2)	10.61

Counter/Wall-Mounted Eye Wash Drench Hose

Unit may be used as a fixed eye wash station or as a removable drench hose — meeting ANSI Z358.1- 2014.

- Both spray heads have a flip-top dust cover.
- Internal flow control and filter removes impurities from the water flow.
- Forged brass squeeze valve.
- Stainless steel lever handle has a locking clip to provide hands-free operation.
- 8-foot reinforced PVC hose has a working pressure of up to 300 PSI.
- Bracket with spring clips holds the unit on the wall.
- 3/8-inch NPT male swivel type inlet prevents backflow.
- ANSI-compliant sign included.

3446 40011	Earplug Rack	11-3/4" x 10-1/2" x 11-1/2"	\$69.84

FitCheck Solo

Test the attenuation of any type of earplugs or insert hearing protector with FitCheck Solo.

- Provides test results that are representative of ANSI S12.6-2016, which is the 'gold standard' for hearing protector attenuation measurements.
- Test from 3 to 7 frequencies to generate a Personal Attenuation Report (PAR) – an attenuation calculation that can be compared to the earplug's NRR.
- Simply plug the FitCheck Solo headphone's 3.5 mm plug into any PC and run the FitCheck Solo application.
- Convenient file storage options and reporting capabilities.
- Software is easy to use and is compatible with Windows XP 7/8/10.
- Based on NIOSH WellFit program.
- FitCheck Solo is the ONLY Field Attenuation Estimation System (FAES) that does not require external hardware – no communication errors, power supplies or cabling requirements.

TRAINING AND FIT TESTING TAKES LESS THAN 10 MINUTES.

! WARNING on 3M/EAR™ Hearing Protection: These hearing protectors help reduce exposure to hazardous noise and other loud sounds. Misuse or failure to wear hearing protectors at all times you are exposed to noise may result in hearing loss or injury. For proper use, see supervisor, User Instructions, or call 3M in the USA at 1-800-243-4630. In Canada, call Technical Service at 1-800-267-4414. If there is any drainage from your ear or you have an ear infection, consult with your physician before wearing ear plugs. Failure to do so may result in hearing loss or injury. * Research suggests that many users will receive less noise reduction than indicated by the NRR due to variation in earplug fit and wearing time. It is recommended that the NRR be reduced by 50% for estimating the average amount of noise reduction provided.

WorkHorse® Bell-Shaped Disposable Earplugs

3M™ Shockwave™ 2 Lanyard

- Stretchable for complete freedom of movement.
- Expands to 6 feet and contracts to 4-1/2 feet in reaction to movements reducing trip fall hazards, dragging and snagging.
- In case of a fall, unique inner core extends and absorbs energy, limiting arresting forces to 900 pounds or less.
- Abrasion-resistant polyester tubular webbing.
- Self-locking snap hooks at ends.
- Impact indicator.

CHOOSING A RESPIRATOR

Check the SDS for your substance to select the appropriate respirator, one must know the contaminants from which they need protection.

Details on various substances can usually be found on the SDS if the contaminant is a raw material used in production. If the contaminant is some type of by-product of a work process, more extensive investigation as to what the contaminant is composed of may be required. Once the contaminant has been identified, it is necessary to determine its concentration by performing air sampling in the work area.

Some other factors to take into account when choosing a respirator are the length of time the worker is exposed to the contaminants, specific conditions at the workplace, whether the workplace is indoors or outdoors, other types of personal protective equipment that is being used and whether chemical exposures may occur at the workplace.

Taking these findings into account, there are two types of respirators from which to choose, with many types of cartridges and filters that are used to block various gases and/or chemicals. These cartridges fit both half mask and full face piece type respirators. The half-mask respirator follows the contours of your face and fits over your nose and under your chin. It grants you a wider field of vision than a full face piece respirator and allows you to wear most types of eyewear along with the mask. Full face piece respirators fit under your chin and over your head and provide the same protection as a half-mask respirator. However, a full face piece respirator protects your eyes and face from airborne particles, chemicals and gases that could damage a worker's eyes.

RESISTANCE TO DEGRADATION		FILTER EFFICIENCY LEVELS		
		95%	99%	100%*
N	Non-Oil Solid particulates and non-oil aerosols that do not degrade filter performance.	N95	N99	N100
R	Oil-Resistant Solid particulates and degrading oil based aerosols. 8 hour use limitation.	R95	R99	R100
P	Oil-Proof Solid particulates and oil based aerosols. No use limitations.	P95	P99	P100

* Actual filter efficiency level is 99.97%.

2222 74001	B. Ammonia/Methylamine Cartridge, Green (1 Pair)		22.94

Adjustable straps don't fall into the field of vision.

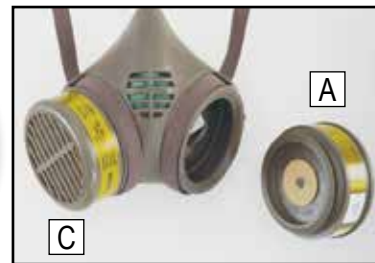

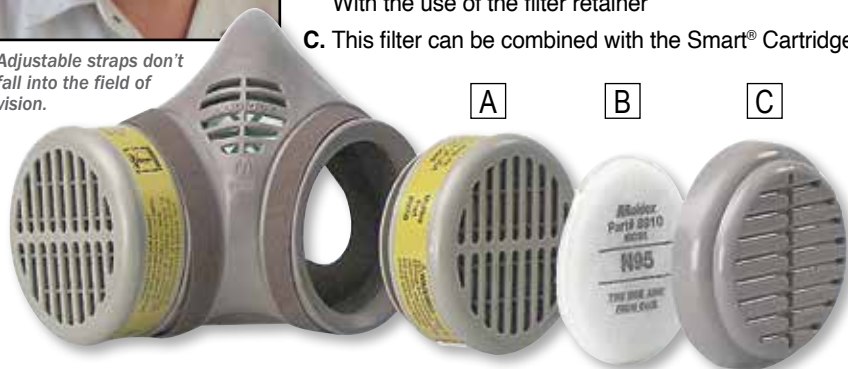

8000 Series Half Mask Respirator

- Inhalation valve is replaced with every cartridge preventing bacteria build up.
- Soft, durable respirator is comfortable to wear and provides a wide field of vision.
- Snap-mount cartridge has no valves, allowing for minimal cleaning and maintenance. • NIOSH approved.

Cartridges and Filters

- Olive Multi-Gas/Vapor Smart® Cartridge protects against Organic Vapors, Chlorine, Hydrogen Chloride, Sulfur Dioxide, Hydrogen Sulfide (for escape only), Hydrogen Fluoride, Chloride Dioxide, Ammonia, Methylamine and Formaldehyde. Can be combined with White N95 Particulate Filter for added protection.
- White N95 Filter protects against solid non-oil based particulates. Provides 95% minimum efficiency. With the use of the filter retainer
- This filter can be combined with the Smart® Cartridge for added protection.

All Moldex products and packaging are 100% PVC-Free for a greener alternative.

ITEM NO.	PRODUCT	SIZE	EACH
2222 80021	8000 Series Half Mask	Medium	\$24.41

WorkHorse® Cut-Resistant Gloves

Constructed of spun threads with fully encapsulated glass fibers and stainless steel.

- FDA-compliant antimicrobial fibers meet USDA food handling requirements.
- Exceptional comfort that is 100% latex and silicone free.
- Resistant to acids, alkali and organic solvents.
- Extended cuff offers extra cut protection around the wrist.
- Machine washable.
- Antimicrobial fiber.
- Ambidextrous.
- Sold per glove, 6 gloves per case.

ANSI/ISEA 105-2016 Rating Chart

A Higher the cut level
= more cut protection

CUT LEVEL	WEIGHT* (GRAMS)
	0 - 199
A1	200-499
A2	500-999
A3	1000-1499
A4	1500-2199
A5	2200-2999
A6	3000-3999
A7	4000-4999
A8	5000-5999
A9	6000+

*Weight needed to cut through material with 25 mm of blade travel.

GAUGE LEVEL

Gauge indicates thickness of threads used in the glove.

Higher the gauge
= thinner threads
for more flexibility.

Extended Cuff

In the food processing industry **70% OF WORKERS** who suffered hand injuries were **NOT** wearing protective gloves.

Indirect costs can include **LOST WORKER PRODUCTIVITY** (potentially running into the 10's of thousands of dollars), cost of training replacement employees, damage to workers' morale and **COMPANY REPUTATION**.

Standard Cuff

The average hand injury bill **EXCEEDS \$6,000**, with each workers' compensation claim reaching **\$7,500**.

Cut-Resistant Glove can be worn on knife hand, when a metal mesh glove is used. Cut-Resistant Glove can be worn on non-knife hand, when a metal mesh glove is not used.

NOTE: These gloves are sold individually, NOT as a pair.

WARNING: These gloves are cut-resistant but not cut proof or puncture proof. Do not subject to moving or highly serrated blades.

Deboning Cut-Resistant Glove

Approved for food contact with exceptional cut-resistance and added puncture protection.

- Puncture resistant material protects areas most susceptible to punctures and cuts while on the deboning line.
- Constructed of high performance fibers and wire.
- Compliant with FDA 21 CFR 177.2800, approved for direct food contact.
- Easy to launder for extended life.
- Ambidextrous, fits on either hand.

WorkHorse® Stainless Steel Metal Mesh Gloves with Strap Closure

The longest lasting, safest, most comfortable mesh glove — at the **LOWEST COST!**

- Heavy-gauge stainless steel rings are machine welded to give the longest lasting protection against cuts and lacerations.
- Ergonomically designed to give the best fit and dexterity.
- Metal dome snap reduces donning and doffing time.
- Available in full hand style with permanently attached straps, and extended 2-3 inch cuff designs with field-replaceable straps.
- Reversible design fits both left and right hand workers.
- Color-coded adjustable strap denotes size. • Easy to clean and sanitize.

NOTE: These gloves are sold individually, NOT as a pair.

NOTE:
We recommend wearing a cotton knit glove underneath your metal mesh.

WorkHorse® Stainless Steel Metal Mesh Gloves with Spring Closure

Durable stainless steel strap is bacteria-resistant and won't rust.

- Reversible design fits both left and right hand workers.
- Color coded stiffeners for easy size identification.
- Reversible gloves are tapered to contour to the shape of the hand for a comfortable fit.
- High tensile stainless steel ring construction is four ring joined, even at the seams to help prevent dangerous knife sticks, cuts, slashes and lacerations.
- Gloves D, E and F have a lighter, coiled spring closure instead of the standard magazine spring closure found on A, B and C - making it a more comfortable and durable spring closure option.
- Sealed strap for a clean, comfortable and secure fit, no loose clips or fasteners to snag.
- 3-inch extended and 7-1/2-inch elbow lengths have added claw hook closure at wrist.

MORA FROSTS® KNIVES

YOUR FROSTS® KNIFE BECOMES A NATURAL PART OF YOUR PROFESSION AND YOUR WORKDAY.

Knives For Professional Users Since 1891

Frosts' factory is located in Mora, Sweden – just as it was a century ago. This is where they manufacture all of their knives using a combination of craftsmen skills and modern technology. Design, materials and ISO 14001 certified green methods are all constantly refined by staff who have inherited generations of professional knowledge. This can be seen in their long tradition of making top quality knives for the food industry.

The carefully selected steel enables their knives to be sharpened to an extreme edge and sharpness that lasts. The handles are ergonomically designed allowing work to be done with force, precision and in a controlled manner. This reduces the risk for work and repetitive strain injuries.

The consistent, high-quality of Mora knives enables users to receive a great deal of benefit and joy from them over a long period of time.

Hygiene and Long Life

Frosts' food industry knives are made according to the legislation and regulations on safe and hygienic handling of foods. The knives are manufactured with a seamless connection for the blade and handle core. High friction handle surface resists wear and is easy to clean and maintain.

MORAKNIL®

Quality takes no shortcuts

By appointment to H.M. the King of Sweden

FROST FLEX INDEX

Carefully selected steel enables knives to be sharpened to an extreme edge and sharpness that lasts.

ERGONOMIC HANDLES

The handles are ergonomically designed allowing work to be done with force, precision and in a controlled manner. This reduces the risk for work and repetitive strain injuries.

GRIP: POLYAMIDE HANDLE WITH MICROBLASTED STRUCTURE FOR OPTIMUM FRICTION			ERGONOMIC-GRIP: DOUBLE-MOULDED ELASTOMER RUBBER HANDLE

Standard handle.	Handle with finger grips.	Handle with a large finger guard and grips.	Handle with an etched structure. Suitable for wet conditions.	Handle with an etched structure and finger grips. Suitable for wet conditions.	Handle with a ribbed pattern. Standard size.	Handle with a ribbed pattern. Small size.	Handle with a ribbed pattern and finger grips. Suitable for wet conditions.
Blades made of Swedish stainless knife steel. Hardness: 58 HRC. Easy to sharpen. Recommended for pork and lamb processing.			Blades made of Swedish stainless knife steel. Hardness: 58 HRC. Easy to sharpen. Recommended for beef processing.				

Straight Boning Knives

- High-carbon, no-stain steel gives the best service and life.
- Blade memory allows knife blade to return to its original position when it bends or twists during the cutting process.
- Ingrained pattern in the handle improves friction when knife is wet or greasy.
- Boning knives are designed for both diagonal and dagger positions – eliminating the need to shift the grip on the knife.

Dexter® Prodex Knives

- Durable handles offer a unique texture and pronounced finger guard for a safe, anti-slip grip.
- Handle shape, materials and reverse hook finger guard virtually eliminate injuries due to slippages while remaining comfortable in all gripping positions.
- Anti-slip material eliminates fat barrier between hand and handle, thus reducing gripping pressure and fatigue.

Granton® Edge

Patented ground scallops are the secret to the Granton® advantage.

Granton® Edge knives use an innovative fluted edge that creates air cushions which allow for very smooth, fast cutting.

Granton® blades are made from fully hardened and tempered Sheffield stainless steel.

Granton® Handles are double-tapered and ergonomically angled. For added comfort, the thumb platform is contoured and the blade back is rounded.

Developed by Granton® over 50 years ago, the Granton® Edge is a superb razor sharp cutting edge that can be re-sharpened on a steel in the usual way.

Granton® Plain Edge Knives

- Color-coded handles.
- Premium stainless steel blade.
- Hygienic polypropylene co-polymer handle.
- Safety guard.

Double-Bladed Knife

Ideal knife for cutting along poultry keel bones.

- Simply remove the screw and the double-bladed knife becomes two separate knives with handles — allowing for easy sharpening.
- Optional dual edge sharpener allows both blade edges to be sharpened simultaneously.

NOTE: Steel and table-mount sharpener both sold separately.

ITEM NO.	PRODUCT	EACH
3523 10151	Double-Bladed Knife.....	\$87.39
3523 24001	Table-Mount Sharpener.....	118.95

Sharpen with steel of choice or optional table-mount sharpener.

Double-Bladed Keel Knife

Choose between 1/8-inch spacing or 1/4-inch spacing for larger fowl.

- Replacement handles, blades, binding posts and screws available.
- Ergonomically designed pistol grip. • Blades may be sharpened independently.

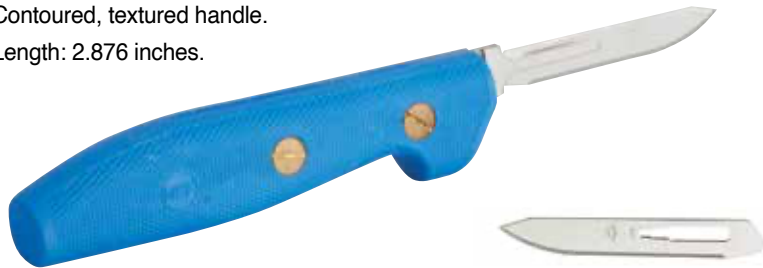

ITEM NO.	PRODUCT	EACH
0891 10011	1/8" Spacing.....	\$44.95
0891 10021	1/4" Spacing.....	44.95

Dual Blade: Cuts on both sides of the keel bone with one stroke, unlike one-bladed knives which require two strokes.

Scalpel Knives

- Easy to replace, wrapped, stainless steel blades.
- Contoured, textured handle.
- Length: 2.876 inches.

Lopping Shear

A fully hardened, precision-ground steel blade stays sharp and a rust-resistant, low-friction coating makes every cut even easier.

- For added control, durable steel construction is enhanced with non-slip grips.
- Bypass blade style. • Overall length: 28 inches.
- Steel construction provides lasting durability.
- Maximum cutting capacity: 1-1/2 inch diameter.

3-Way Knife Sharpener

Features three, 12-inch ceramic rods, each with a different coarseness, to improve the blade's edge. The 3-way flips over to give you the appropriate coarseness for the job.

- To keep a sharp knife sharp, use only the white rod.
- No oil or water necessary when sharpening.
- Ceramic rods improve with use.
- For a dull or worn edge, use the brown rod and final hone with the white rod.
- For partially dull edge, use the gray rod and final hone with the white rod.

EV05 Knife Sharpening Machine

Robust and reliable for sharpening a wide variety of cutting tools.

- Grinding angle is adjustable from 20° to 50°.
- Magnetic knife guides ensure that knives are always ground with the correct cutting edge angle.
- The polishing disk produces fine, polished surfaces and a burr-free, very smooth cutting edge.
- Dirt-resistant membrane pump conveys the cooling water to the grinding unit. The cutting edges cannot be overheated during grinding. The grinding abrasion collects in the water tray. A magnetic bar separates the dirty area from the clean area preventing the grinding abrasion from re-entering the coolant circuit.

KNECHT

POWER SHARPENERS

Sharpen knives on wet grinding wheel at any angle.

Deburr and polish.

Water tray into dirty and clear areas by magnetic bar.

Magnetic bar collects dirty abrasion in water tray.

Dirt tray with suction socket, use to connect to vacuum.

Tray Pack Blades	403
Circular Blades	404-405
Specialty Blades	406-409
Scalpel Knives	410
Replacement Specialty Blades	410-411

FOUR STEPS TO THE RIGHT SPECO™ GRINDER PLATE

1. Determine the plate size of your grinder.

Measure the diameter of the grinder plate and match it up to the corresponding plate size below:

DIAMETER	2-3/4"	3-1/4"	3-15/16"
PLATE SIZE	#12	#22	#32
DIAMETER	5-1/8"	6"	8-5/8"
PLATE SIZE	#52	#56	#66

2. Identify grinder plate mounting style.

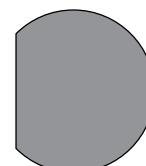

Look at your grinder plate and match up the face shape to one of the styles listed below:

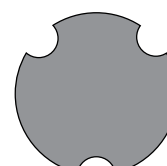

Universal Style
(Also works for
Cleveland Style.)

Cleveland Style

Toledo Style

Enterprise Style

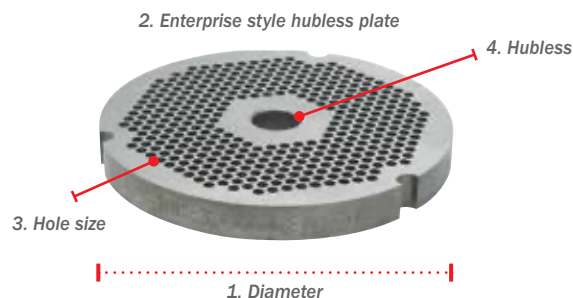

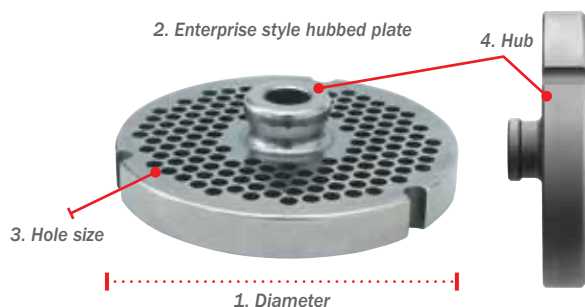

3. Determine hole size.

The hole sizes we are referring to are the holes that are cut into the top side of the grinder plate. Choose from the following sizes:

HOLE SIZE	1/8"	3/16"	1/4"	3/8"
HOLE SIZE	1/2"	3/4"	1"	

4. Hub or hubless plate?

Plates with a center hub are stronger and easier to remove from grinder. Hubless plates are reversible for extended wear.

Bone Collector System

Solid hub bone collector plates in the following sizes:

- Hole sizes: 3/32 inch, 1/8 inch, 5/32 inch and 3/16 inch.
- Plate diameters: 5-1/8 inch, 6 inch, 8-5/8 inch and 11 inch.
- Grinder sizes: 52, 56, 66 or 11.

NOTE: When ordering please specify the following: machine make and model, plate hole and size and plate mounting style.

EdgeMaster™ Performer America's Finest Quality Bandsaw Blades

High yield, 3- or 4-tooth design gives smooth cuts, less waste.

- Made of super-hard steel with precision-stamped, specially tempered tooth set for smooth sharp cutting and long-lasting performance.
- Accurate, narrow blade tooth set permits faster, cleaner cuts. • Meat waste, bone dust, and vibration are reduced and scoring is eliminated.
- All welds are guaranteed for the life of the band.

1. Special design and construction permits a unique gullet tooth that removes waste and dust during cutting.
2. Enables the following tooth to cut uninterrupted and to ultimate capacity.
3. Steel composition offers wear resistance properties not available in competitive blades providing a longer life.

EdgeMaster™ Munkfors Premium Quality Bandsaw Blades

BANDSAW BLADES

Quality:

- Committed personnel with long experience in inspecting and evaluating blade design, materials, construction, and function.
- Only the best strip steel – meets or exceeds requirements for high strength, exceptional flatness, and straightness, excellent weldability and tight tolerance levels.
- Stringent standards of production and quality control guided by ISO 14001. MUNKFORS leads the development of bandsaw blades in the meat, poultry, and fish processing industries.
- Unique manufacturing technology guarantees blades of the highest quality and longevity of performance.
- Quality EDGEMASTER™ MUNKFORS blades enable our customers to improve productivity and sharpen their competitive edge.
- Small part for big value – Bandsaw blades account for a small part of production costs, but are critical in maximizing the operating performance and product yield.
- Blades exceed standard running time – maximizing profit. • Ultra-sharp teeth of uniform geometry.
- Allows use of harder steel than in conventional manufacturing methods, which increase blade reliability and stability.

Advantages:

- Swedish steel. • Longer blade lifetime. • Sharper blades.
- Less waste. • Cleaner cutting. • Minimum downtime.

All blades are individually wrapped and coiled.

Our Commitment to Humane Stunning

Bunzl Processor Division has established itself as the premier partner for humane handling in the food processing industry. Our commitment to this cause is unparalleled in the marketplace. We offer FREE ON-SITE CONSULTATION to assist customers in determining the right humane stunning equipment needs for each environment.

Chuck Bildstein

Humane Stunning and Equipment Specialist

Chuck has been recognized as one of the top influences in Humane Animal Handling. He has worked closely with Temple Grandin, Ph.D., in the area of humane stunning. He was a part of the AMI team that traveled to Washington DC to present at a congressional briefing on animal welfare and has lectured at various universities in the U.S. and Canada. We are proud to have Chuck on the BPD/Koch Supplies Team for over 24 years.

Chuck can be contacted by dialing 319-573-6121 or by email at charles.bildstein@bunzlusa.com

Ryan Malone

MRO and Equipment Specialist

Ryan received experience in humane animal handling as assistant manager at the Kansas State University Meat Lab and graduated with a degree in animal science. He was also Meat Judging National Champion and All American at Fort Scott Community College. We are proud to have Ryan on the BPD/Koch Supplies Team for over 3 years.

Ryan can be contacted by dialing 816-820-7768 or by email at ryan.malone@bunzlusa.com

SPECIES APPLICATION KEY

Refer to this chart when choosing cartridges on pages: 414, 416, 418, 420, 422.

Chuck Bildstein, BPD's Humane Stunning and Equipment Specialist, has had a working relationship with Dr. Temple Grandin for many years. You will find that much of the equipment mentioned in *The Slaughter of Farmed Animals* can be ordered and purchased from Bunzl Processor Division. As an example, Jarvis stunners are featured prominently in this book – proving once again that Jarvis and BPD offer what many consider to be the best line of stunners in the industry.

JARVIS®

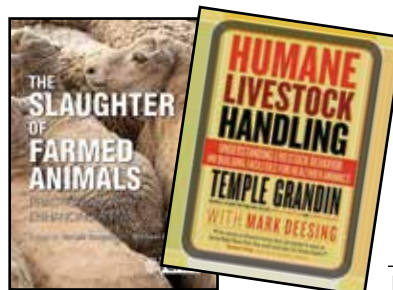

Jarvis Products Corporation is the world's largest producer of meat and poultry processing equipment.

- Made in the USA in Middletown, CT.
- Service — 26 Jarvis Field Service Technicians for in-plant service.
- Support — Expert advice (22 years of experience) for support, troubleshooting and training.
- Availability — Stunners, parts and power loads stocked in warehouses throughout the USA.

The Slaughter of Farmed Animals Practical Ways of Enhancing Animal Welfare

Edited by Temple Grandin and Michael Cockram

This book provides a balance between evidence-based, scientific studies, and down to earth practical advice.

Humane Livestock Handling Understanding Livestock Behavior and Building Facilities for Healthier Animals

By Temple Grandin with Mark Deesing

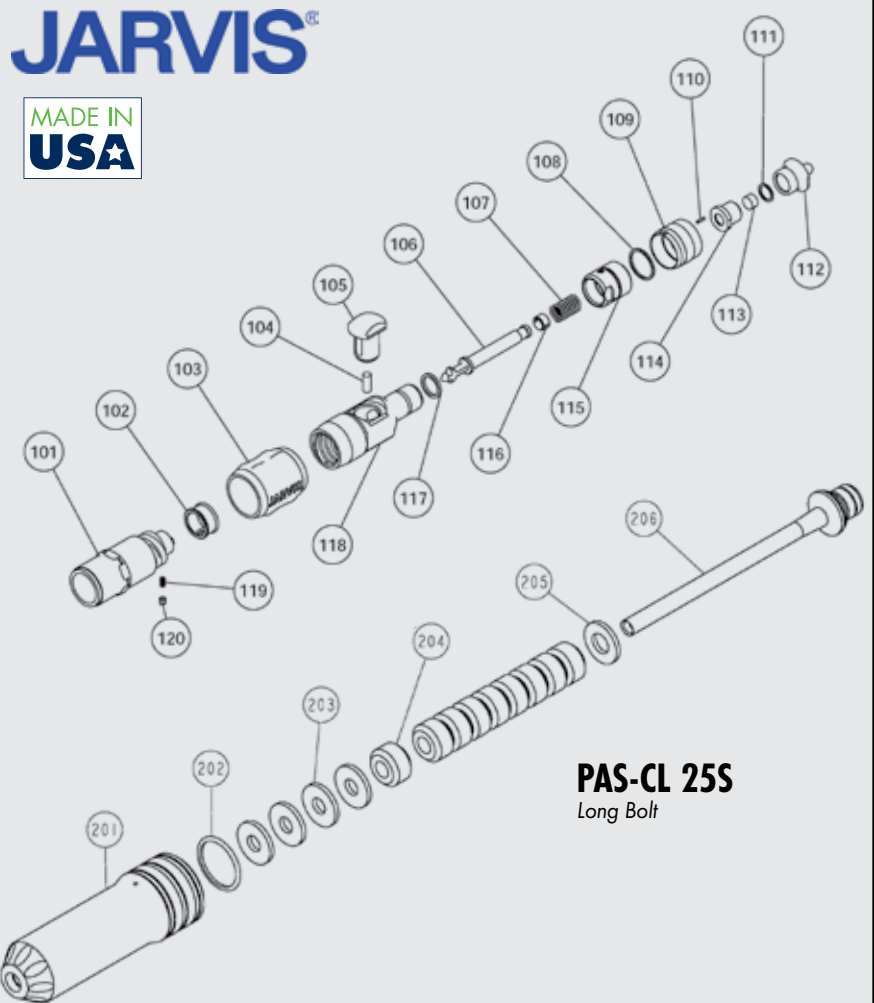

Humanely handling your livestock can improve the day-to-day operation and profitability of your farm.

HPS-1 Non-Penetrating Air-Powered Stunner

Non-penetrating euthanasia stunner for small livestock and poultry.

- Practical for use on small pigs, turkeys, rabbits, ostriches, fish, ducks, goats, sheep and geese.
- Can be used with either an easily changeable 12-ounce CO₂ cylinder (providing over 150 shots), portable high-pressure air tank or connected to an air compressor.
- Adjustable impact pressure handles different sizes of animals.
- Single trigger control makes for comfortable handling and operation.
- Light-weight, easy-to-clean and repair.

USSS-BBS Non-Penetrating Pneumatic Stunner

Unique design renders the stunned animal insensible to pain without penetrating the skull.

- The longer housing gives the rod 0.65 inches more free travel before it leaves the head contact.
- Easy to handle and operate for less operator fatigue and more accurate head contact.
- The air chamber is 1-1/2 inches longer giving 30% more available air when fired.
- Valve body is larger and has a larger valve which provides more air flow.
- Stunning rod has a larger 3-1/4-inch piston.
- One shot humane stunning procedure.
- Better stunning for improved meat quality.
- Easy to maintain, clean and repair.

USSS-21 Pneumatic Stunner

- Newly designed, lighter weight oblong shaped stunning rod for easier skull penetration and 15 to 20% faster bolt speed.
- More efficient, uses 25% less air with no performance loss.
- Two different firing sequences — less chance of activating stunner accidentally.
- Redesigned auxiliary handle that rotates to operator's preference.
- Easy to handle, repair, maintain, and clean.
- Improved ergonomic handle design for less operator fatigue, and controlling possible injuries.

KnockerVest™ with Detachable Groin Protector

Designed for body protection while using stunning equipment.

- 100% aramid ballistic package (type IIIA) backed with 1/2-inch closed-cell foam and inserted in a 1,000 denier Cordura carrier vest which is coated with a urethane film for even more water resistance.
- Water-resistant carrier vest meets the highest standards for soft body armor.
- Back of vest is made of a tough, breathable open nylon mesh that is made to withstand multiple washings.
- All fasteners are quick-release with adjustable straps and plastic buckles to ensure a great fit.
- Outer shell carrier units may be hand or machine washed with mild detergent and air dried.
- Groin protector and cover are both sold separately.

ITEM NO.	PRODUCT	SIZE/LENGTH	EACH
4009 25891	KnockerVest™	Medium	\$549.95

Hand-Held Pneumatic Skinner

Jarvis' Handheld Pneumatic Skinner for removing skin and fat from pork, beef, poultry and fish carcasses.

- Specially designed for fast and efficient removing of trimming strips, rounds, butts, hindquarters and loins from pork carcasses.
- Low cost skinning of boars and sows with uniform, controlled depth removal of skin and fat.
- Also useful for ham trimming and de-fatting, fish skinning, removing chicken breast skin and trimming turkey membranes.
- Provides clean, uniform skin removal without knife cuts or gashes.
- Easy to operate, clean and maintain.
- Adjustable 360° rotating handle for comfortable handling.
- Also available in 1/16 inch and 3/16 inch. Call for more information.

NOTE: Use with air hoses listed above.

Packers Kromer™ INOX PRO® Zero Gravity Balancers

Designed specifically for the food industry.

- Reduce worker fatigue, safety hazards and tool/air hose damage while allowing for improved accuracy and production volume.
- For use in the ergonomic placement of production tools.
- High-strength anti-rotation steel cable with rubber buffer and screw-type spring hook for load suspension.
- Precise stepless tension and load adjustment for zero-gravity balancing.
- High-strength, riveted cold rolled steel spring for 5 times the spring life.
- Superb German craftsmanship. • Locking safety hook.
- Freely rotatable and swiveling suspension.
- Many beneficial features, including: High impact nylon or uncoated, high-strength aluminum housing.; Stainless steel cable.; Automatic safety detent.; Easy load leveling.; Safety drum lock.; Quick change cable.; Stainless steel safety chain included.; Easy spring change.

Medium-Duty

Model 7230

- Cable Travel: 6.5 feet (2 m).
- High-impact orange nylon housing.

ITEM NO.	MFR. NO.	WORKING LOAD (lb/kg)
1968 01501	7230000133. . .	13.3-22 pounds/6-10 kg
1968 01531	7230000134. . .	20-30 pounds/9-14 kg
1968 01601	7230000135. . .	28.7-37 pounds/13-17 kg
1968 01541	7230000136. . .	35.2-46.3 pounds/16-21 kg

FOUR IMPORTANT STEPS TO DETERMINE WHICH BALANCER IS RIGHT FOR YOU:

1. Tool weight including accessories.
2. Balancer load range (best performance in mid to upper load range).
3. Travel (distance tool moves during operation).
4. Overhead space for balancer to hang.

Retractors

Retracting force increases with increasing cable extension, automatically retracting working load (tool) to its initial position after use.

- High-strength anti-rotation steel cable with elastic cable stop buffer and screw-type spring hook for load suspension.
- High-impact orange nylon housing.
- High-strength riveted cold rolled steel spring for 5 times the life.
- Spring is not replaceable.

Wellsaw 444 Meat Saw

6,300 strokes per minute, 2 hp.

- Heavy-duty 2 hp motor 115 V AC single phase.
- Reciprocating blade design allows cutting on both strokes at the rate of 6,300 strokes per minute, with a 1-1/2 inch stroke length.
- Adjustable ring for overhead counter balance attachment. • Quick action double-pole trigger switch. • Teflon coated blade support.
- 10-foot heavy-duty, grounded 3-wire power cord. • Weight: 26 pounds.

ITEM NO.	PRODUCT	EACH
3028 5252	16" Wellsaw 444 - Complete Unit	\$2,601.10

Includes 16" heavy-duty blade and support.

SER-04 Reciprocating Breaking Saws

The latest in breaking saw technology. Electrically powered reciprocating saw for production breaking and general purpose use.

JARVIS®

Complete saw shown here.

- Light-weight — 19 pounds for ultimate flexibility.
- This electric saw is suitable for use on beef, hogs, sheep and veal.
- 1.9 hp motor. • Blade Speed: 4,100 strokes per minute.
- Overall Length: 20-1/2 inches • Weight: 19 pounds. • Meets national and international requirements for hygiene and safety.
- 1 phase, 50/60 Hz. • Common applications include cutting forequarters, shank bones, primal cuts, aitch bones, brisket opening, and splitting.
- Double insulated. • Smoother more comfortable operation. • Ultra low vibration. • TEFC motor.
- Order 200mm, 300mm, or 400mm blades and supports separately.

Buster Carcass Splitting Bandsaws

The world leader in splitting technology.

JARVIS®

Scan this QR code with your mobile device to see a Buster Bandsaw product video.

- Superior blade life.
- Electrically powered bandsaws for splitting cattle, bulls, oxen and pork.
- The largest Jarvis splitting saw; suited for the largest carcasses.
- Best possible hygiene — spoked wheels, flat surfaced housings and completely opening doors — for fast, easy, and complete cleaning.
- The drive system is oil bath lubricated for sustained trouble-free operation.
- Ultra-thin rail for unobstructed vision and dual rear handles for comfort.
- Anti-tie down controls and totally enclosed electric motor for operator safety.
- Meets national and international requirements for hygiene and safety.

JARVIS SERVICE TECHNICIANS ARE AVAILABLE TO PROVIDE FREE CUSTOMER SERVICE, INCLUDING EQUIPMENT INSTALLATION, SERVICE CALLS AND EMPLOYEE TRAINING. Call 800-456-5624 for details.

IDFI SWITCH ORDERING IDENTIFICATION GUIDE

NOTE: Freight charges not included.

HERCULES™ Rail Switches

SPECIAL
ORDER
ITEM

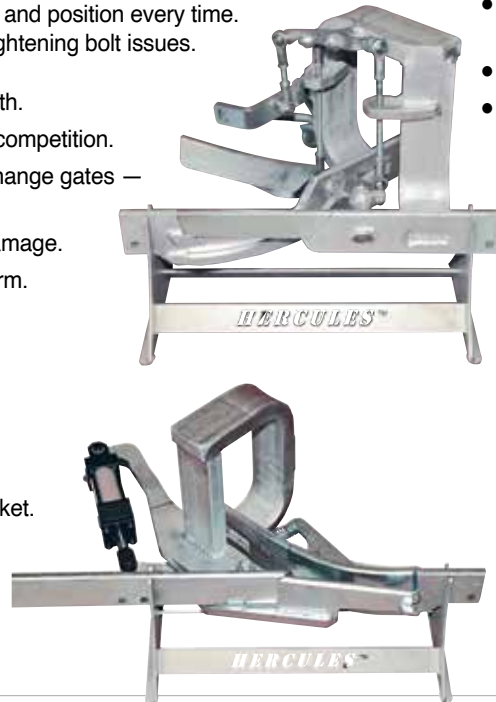

RAIL SWITCHES

Automatic Switches: 2,000/3,000 pound rating*

- Replacement Pin, Bushing and Shoulder Nut.
 - No more attempting to repair broken or bent bolts to correct angle.
 - Replacement Pin design assures proper angle and position every time.
 - Bushing and nut set spacing eliminates over tightening bolt issues.
 - Pin replacement, easy as replacing a bolt.
 - Pin and Bushing combination increases strength.
- Switching mechanism has fewer parts than the competition.
- Switching uses easier up and down motion to change gates — eliminates side-to-side motion to change gates.
- Heavy guards protect linkages against trolley damage.
- Stainless steel turnbuckle design on adjusting arm.

Divert Switches: 4,000 pound rating (Air or Hydraulic Options)

- Stronger one piece Cylinder Mounting Arm Bracket.
- New cleaner spring location.
- Stainless steel cylinders air or hydraulic.
- Gate design improves weight transfer throughout the entire switch.

Gear Switches: 2,000/3,000 pound rating*

- Offers lower gate travel path height reducing chain interference issues (patent pending design).
- Heavy-duty trolley stop (patent pending design).
- Heavier gear design.

NOTE: All switches are patent-pending designs.

*Automatic and Gear Switches carry a 2,000 pound rating when hung with hangers. Rating can increase to 3,000 pounds when welded off to a beam.

Rails:

- Rails are water jet cut using T1 steel which increases strength and improves wear resistance.
- Water jet cutting allows an increase in the amount of material under the gate pocket as well as accurate duplication of parts.
- HERCULES™ = 1-3/4 inches – Industry Standard = 1-1/4 inches.
- Heavier Gates – increased gate dimension due to cutting the parts out of plate steel instead of using standard 2-1/2" meat rail.
- HERCULES™ Gate 1-1/2 inches.
- Industry Standard Gate 1-1/4 inches.

Bridge/Uprights:

- 1 inch x 2-1/2 inch upright dimension.
- Uprights clock into rail for accurate line up and stronger welds — allowing weld on both sides of rail. The industry standard design uses a face weld on one side only.
- Bolt on bridge design matches up for true placement.
 - Wider bolt pattern increases strength.
 - Lower flange design places bolts below beam.
 - Flange design gives clean welding surface.

Parts:

- Parts repeatability achieved by water jet cutting, laser cutting and CNC machining.
- Easy-to-follow parts sheets only require basic switch information to order correct replacement parts.
- Off the shelf parts interchangeability means faster turn around and less down time.
- Precision parts require less time to change out parts and complete repairs done to units hanging in place.
- HERCULES™ Switches are made one design per style only, minimizing confusion and ordering errors.

Quoting and Ordering:

- Switch part number explanation sheet gives step-by-step guidelines to get all the necessary information when ordering switches.
- Ordering Identification Guide provides pictures to better identify switch style, type and dimensions.

Whole Units:

- Faster delivery times.
- HERCULES™ Switches are made to industry standard dimensions allowing use of existing hangers when replacing competitors switches.

VGK Oil-Free Rail Systems

The first and only oil-free trolley on the market.

Old-fashioned cast-iron trolleys and carbon steel rail cause black specks/rail dust that require oil, hazardous chemicals and wasteful, labor-intensive trimming. Most cast-iron trolley wheels wear out within months, while VGK wheels last for years and are cleaned with simple soap and water.

Additional benefits to the VGK Oil-Free Stainless Steel Trolley:

- No metal-to-metal contact wheel to rail. • Eliminates oil costs.
- Eliminates trimming labor and waste due to trolley contamination.
- Eliminates black specks, rail dust, oil drips. • Lasts years instead of months.
- Eliminates caustic cleaners used to derust trolleys, a hazardous waste.
- Consistent tare weight. • Meets USDA, FDA and FSIS guidelines.
- Calculated return on investment — 1 year ROI.
- Reliable carrier of information technology.

VGK Rail Trolley with hook.

VGK stainless radius rail.

VGK Rail Trolley with gambrel.

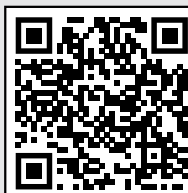

Patented wheel design requires NO OIL!

TRIM YOUR COSTS CLEAN AND GREEN

How long do your cast iron wheels last?

This VGK wheel has been in continuous use for 12 YEARS and is still rolling strong!

Scan this QR Code with your mobile device to watch a video about VGK Trolley Systems.

Stainless Steel Double Trolley with Roller Bearing Wheel

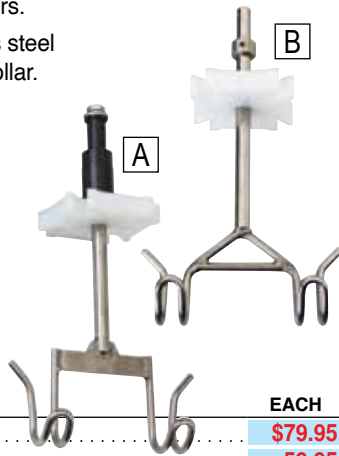

- Stainless steel 4 inch diameter roller bearing wheel for ease of rolling heavy loads.
- Wheels are heat treated to a high hardness for long wear.
- Rollers and balls are held separate in a cage to reduce friction.
- Suitable for brine chill installations.
- Wheel flanges are smooth and rounded to prevent track climbing.
- Frames made of solid 18-8 Type 304 stainless steel.
- Electropolished to a bright, smooth finish.

Custom Flat Steel Bar Gambrels

- One piece solid stainless steel construction with rolled edges.
- True sanitary design, custom manufactured to your specifications with exact verified weight.

Call for details and to place your order.

Weasand Clips

- Constructed of FDA/EU-approved material.
- Designed for quick and easy use.
- Available by the case or in a cartridge.
- Clip breaks into small inert particles through most rendering systems.
- Applied properly, there is no chance of ingesta leakage or clip slippage.
- Use of the cartridge with a dispenser eliminates clip cross contamination, speeds up access for line operator and reduces dropped and wasted clips.

1-Inch Lamb Weasand Clips

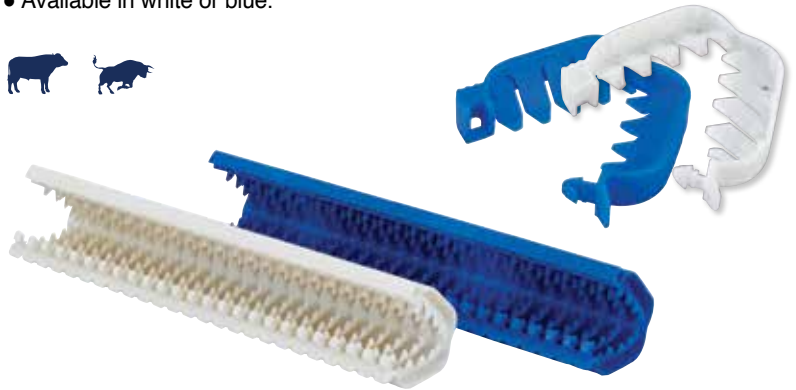

- Effective across a variety of species including calves, veal, goats, and venison.
- Cartridge dispensers help eliminate cross contamination.
- 25 clips per cartridge.

Hog Scraper Paddles

- Case hardened steel knives.
- Durable rubber cover is easy to clean.
- Bias cut fabric stretches to maintain contact between knives and carcass.
- Fabric reinforcement of compression section ensures durability for the life of the paddle.

NOTE: Attachment hardware sold separately.

A. 5-Star Paddles

- Rubber wedge for added stiffness — paddles last 4 to 5 times longer than conventional types.
- Substantially reduce machine downtime and replacement costs.
- 1/2-inch mounting holes, 2-1/2-inch mounting hole distance.

ITEM NO.	PRODUCT	SIZE	EACH
3939 0001	5-Star Paddle, 3 Cleat	4" x 9"	\$68.02

B. 7-Star Paddles

- Heavy 5-ply fabric wedge increases stiffness and durability — paddles last up to 10 times longer than conventional types.
- 1/2-inch mounting holes, 2-1/2-inch mounting hole distance.
- Handle hogs up to 550 pounds.
- Work fast and clean, even during “hard hair” season.

ITEM NO.	PRODUCT	SIZE	EACH
3939 00171	7-Star Paddle, 3 Cleat	4" x 9"	\$66.69
3939 9015	7-Star Paddle, 5 Cleat	4" x 9"	98.03

C. PremiumStar® Paddles

Research and in-plant testing have proven that this is the paddle to use in high-impact areas for the most punishing of applications.

- Constructed of super-strong material compound to improve performance and provide longer life and lower maintenance.
- Paddles retain their operating stiffness — won't bow after a few days.
- Includes steel bushings.
- 1/2-inch mounting holes, 2.44-inch mounting hole distance.

ITEM NO.	PRODUCT	SIZE	EACH
3939 10031	PremiumStar® Paddle, 3 Cleat	4" x 9"	\$64.63

D. Attachment Hardware

- For use with all paddles listed above. (Not for use with backers.)
- Contains hardware to attach one paddle to de-hairing machine.
- Set contains: 1 bolt plate, 2 cap screws, 2 cut washers and 2 elastic stop nuts.

ITEM NO.	PRODUCT	EACH
3939 0016	Attachment Hardware for 4" x 9" Paddles	\$18.07

Chicken and Turkey Diaphragms

Char Marking O-Rings

- When precooking patties (for example, beef, chicken or soy patties) and other food products at a high production rate for fast food or for frozen dinners, it is often desirable to simulate the effect of broiling food products on a grill, which is commonly called "char marking" in the food processing industry.
- Char marking improves the eye appeal of the product by branding spaced parallel stripes, giving the appearance that the product was broiled over charcoal on spaced grill bars.

Steak Tenderizer

Mixed with potable water, one box makes 5 gallons of tenderizer.

- Double-strength action to improve tenderness and flavor.
- 1 gallon will treat between 500 to 600 pounds of steak.
- Prevents over-tenderizing and penetrates to the center of the cut.
- Apply solution to all surfaces, hold steak 1 to 3 hours before freezing.

Cure-It Stainless Steel Curing Pump

Washdown design for the food processing industry.

- Powerful, 1/2 hp motor puts less stress on the pump, resulting in extended life — this is the most powerful motor available in a portable unit.
- High-velocity fan keeps the motor cool. • On/Off switch • Fully washdown, no exposed parts. • Only 4 bolts for easy maintenance.
- Shroud covers motor shaft with drain hole at bottom. • Pump is made of stainless steel, USDA/FDA materials.
- Includes: Complete Curing Pump Unit with motor, hoses, injection valve, artery needle, spray needle.
- Platform with smooth surface base has an open-end design to allow the unit to be easy to move and carry.
- The open ends also allow for easier cleaning underneath the unit. Water won't get trapped so less chance for bacteria to form.
- Rubber grommets on the base and under motor to assist with making the unit very quiet.
- The pressure release valve design allows user to easily adjust pressure with no tools needed.

Scan this QR Code with your mobile device to watch a video about the Cure-It Injector.

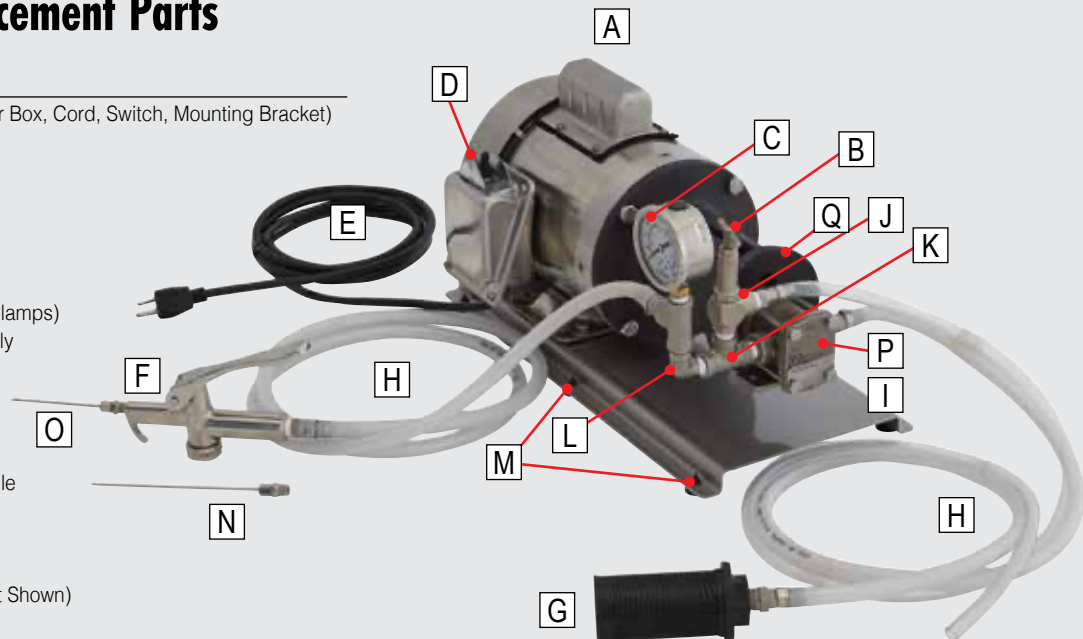

Oil filled valve for steady needle readout — no more trying to read a bouncing needle.

Oven, Grill and Smokehouse Cleaner

Removes grease, soot, tar and other accumulations from smokehouse walls, floors and ceilings.

- With a pH of > 12.5 and caustic formulation, it offers the performance of traditional caustic oven, grill and smokehouse cleaners.
- Highly effective on grease, fats, oils, carbon, dirt and baked-on deposits on food prep and cooking surfaces such as ovens, grills, deep fryers, smoke houses and meat curers.
- The thickened formula sticks to vertical surfaces, to allow for longer dwell time and better cleaning.
- Keep away from heat, open flames, sparks.
- Meets A4 guidelines.

► FOUR, 1-GALLON BOTTLES.

Char Marking Rings

- When precooking patties (for example, beef, chicken, or soy patties) and other food products at a high production rate for fast food or for frozen dinners, it is often desirable to simulate the effect of broiling food products on a grill, which is commonly called "char marking" in the food processing industry.
- Char marking improves the eye appeal of the product by branding spaced parallel stripes, giving the appearance that the product was broiled over charcoal on spaced grill bars.

WE'RE YOUR COMPLETE PACKAGING PARTNER

NATIONAL COVERAGE • OVER 40 YEARS EXPERIENCE

Take advantage of our dedicated
EQUIPMENT SERVICE TEAM.
Experienced in troubleshooting and
repairing all makes and models of
rollstock and vacuum chamber machines.

**LOWEST LABOR RATES
IN THE INDUSTRY**

800-888-3610

PREVENTIVE MAINTENANCE MATTERS

*Available to any customer with an estimated labor cost of \$1,100 — excluding cost of parts and travel expenses.
Service normally takes about 10 hours to complete — depending on the condition of the machine and availability of parts.*

- Operate faster and with fewer interruptions providing quality and consistency.
- Provides higher safety standards in food safety.
- Reduces costly repairs later.
- Detailed maintenance records as evidence of safety standards.
- Make the most of your investment.

Service will be billed as an hourly rate with a four-hour minimum. Travel expenses will also be billed which would include: travel time, air travel, rental car, lodging and a daily meal allowance.
If the service personnel drives to the customer's location, travel time plus mileage charges will apply.

Chub Film and Vertical Form Seal Film

WE OFFER A VARIETY OF CUSTOM OPTIONS:

- Random repeat, scatter or registered print.
- Up to 10 colors; with gloss or matte finish.
- Surface or reverse print laminate.

CUSTOM SHRINK BAGS, ROLLSTOCK, CHUB FILM AND VERTICAL FORM SEAL FILM

Forming and Non-Forming Barrier Rollstock Films

More Robust

- Wider operating window handles a greater variety of forming depths over a broader temperature range making the film more forgiving and easier to use.
- Requires less heat and creates less demand on equipment.
- Premium 11-layer cast coextruded technology.

Better Machinability

- Film conforms easier to machine tooling.

Improved Clarity

- Up to 50% clearer. • Improves retail shelf appeal.

Seals through contaminants

- E-seal technology is the choice for value-added product applications such as marinated, pumped, brine, sauced and seasoned and cooked.

Greater Memory

- Improved shrink creates a tighter, better looking package.

Approved for heat treatments

- Cook-in applications up to 180 °F for six hours.
- Post-pasteurization conditions up to 212 °F for 30 minutes — Microwave re-heating up to three minutes on high power for previously cooked foods.

CLARITY™

FLEXIBLE PACKAGING

Black Non-Forming Rollstock

- High gloss.
- High barrier.
- High run speed.
- Stocked in common sizes.
- Highest opacity percentage UV light blocking in its class.
- High quality 11 layer cast film.
- Compatible for retail packaging of ground, bulk or linked sausage and steaks.

Our packaging professionals are ready to help you with all your rollstock needs. On-site packaging consultation is available for FREE.
CALL FOR MORE INFORMATION.

OUR ROLLSTOCK IS DESIGNED TO BE COMPATIBLE WITH MANY BRANDS OF MACHINES

* All films are manufactured for BUNZL Processor Division and are not made, licensed, sponsored or approved by the original equipment manufacturer.

All products listed are replacement films only; they are not original equipment and BUNZL Processor Division is not affiliated with the manufacturers listed.

All references to original manufacturer's equipment are for identification purposes only. All BUNZL films are manufactured to exacting specifications using the highest quality materials.

Lidding

We offer top lidding films for thermoformed rigid trays and the form fill and seal process for modified atmosphere packaging (MAP). Our shrink lidding films are coextruded high barrier with superior antilog technologies and crystal clear transparency; perfect for tray sealing.

- Full range of barrier and non-barrier lidding films. • Choose from lock, peelable and peel/reseal technology.
- Superior clarity. • Enhanced anti-fog properties. • Registered or random printing available.
- Films available for sealing to all rigid substrates (PE, PP, PET, APET, RPET).

Vacuum Skin Packaging (VSP)

Use the right skin film to make your product stand out from competitors' products on the supermarket shelf.

- VSP can be used with semi-rigid films, pre-made trays and coated board stock.
- Provides consumer appeal without compromising shelf life and packaging security.
- Vertical display ability allows for maximum product exposure while conserving space.
- 10-K OTR and Barrier options available.

Modified Atmosphere Bags

- 7 layer coextruded technology utilizing high performance resins to offer a wide range of possible barrier levels.
- Available in nylon, EVOH or PE options; clear and colored material.
- Proprietary sealant technology for better seals through contaminants.
- Compatible with all machines.

CALL 800-456-5624 TO ORDER.

3 Mil Sealed On One End Cook Chill Bags

- After filling, the open end is then closed with a clip or impulse sealer.
- Bag is sealed on one end.
- Estimated Volume: 1/2 gallon.
- Size: 10 inches x 18 inches.

On larger bags an angled seal adds extra strength and a surface to hold onto.

CLARITY™
C5000 COOK CHILL BAGS

NOTE: Additional sizes available. CALL FOR DETAILS.

Features of Cook Chill Bags:

- **LONGER PRODUCT LIFE** — Oxygen and moisture barriers provide increased protection of flavors. The low rate of gas transmission safeguards volatile flavor components throughout distribution.
- **SUPERIOR DURABILITY** — Easily withstands the rigors of handling and distribution. Tears are extremely difficult to initiate or propagate. This toughness permits the filled bag to be tumbled inside the chiller without danger of rupture.
- **POSITIVE CLOSURE** — Bag is pre-clipped or sealed on one end. After filling, the open end is then closed with a clip or heat sealed.
- **IMPROVED SANITATION** — From the time they are placed in the kettle for cooking, foods are untouched. They can be pumped directly into the cook chill bag at above-pasteurization temperature, which assures greater protection against bacteria.

Shrink Film

This multilayered film is versatile enough to perform on all sealing systems and shrink tunnels. The premium resin formulation provides our strongest seals and offers a high shrink force, making it an ideal choice for multi packing and unitizing product.

- Wide window of operation — Performs across a complete range of applications and equipment. Ideal for older equipment.
- Crosslinked technology — Provides consistent sealing and shrinking at a broader range of temperatures.
- Superior sealing performance — On all types of equipment and sealing technology. Yields cleaner, stronger seals eliminating blowouts. Save time and money on expensive rewraps.
 - Higher shrink force — Ensures greater package integrity for multi-pack applications.
 - FDA compliant — for direct food contact. • Printable — For enhanced marketing opportunities.
 - Fully recyclable.

E. Coli Sampling Kit

Designed for sampling meat and turkey carcasses to test for the presence of *E. coli*.

- Contains a pair of sterile polyethylene gloves, 25 mL buffered peptone water (with expiration date marked on the box) a Whirl-Pak® "Speci-Sponge"® Bag, and two disposable sterile templates, one for meat carcasses and one for turkeys.
- Acquire sample by moistening the sponge with half of the peptone water, the carcass is swabbed with the sponge through the template in three places for meat carcasses and two places on turkeys. The sponge is then returned to the bag and the balance of the peptone water is added. The bag is closed and sent to the laboratory for testing.

▶ 25 KITS PER CASE.

ITEM NO.	PRODUCT	THICKNESS	CASE
4220 1324	E. Coli Sampling Kit	2.5 Mil	\$281.45

Standard Bags

Sterile sample bags are used to take samples of liquids, semi-solids, or solids.

- Puncture-proof tabs are easier and safer to use than any other laboratory sample bag.
- Sterilized by ethylene oxide gas by an independent, ISO-Certified company.
- Documentation of sterility is available upon request.

Write-On Bags

Write-on strip makes sample identification easier and more convenient.

- The paper-like finish virtually eliminates ink smearing and provides a surface that will accept a variety of writing instruments. Ballpoint pen is recommended.
- Some also include approximate fill lines.

WARNING: Bags should not be used at temperatures above 180 °F, 82 °C. Bags can be frozen to any temperature, even liquid nitrogen. Careful handling is required after freezing.

Guaranteed Sterile

Whirl-Pak® bags are not autoclavable. Whirl-Pak® bags are sterilized with ethylene oxide gas. Documentation of sterility is available upon request.

"Puncture Proof Tabs"

All Whirl-Pak® bags feature "Puncture Proof Tabs." This patented process extends the tape on the tab past the wire ends eliminating the sharp points which could puncture the bags, scratch a person's hand, or puncture gloves.

FDA Compliant

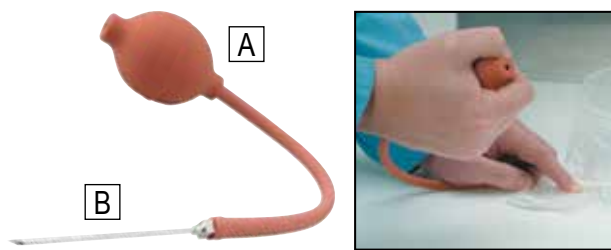

Resins used in the extrusion of film for Whirl-Pak® bags are FDA approved for food contact. Bags are manufactured in accordance with the requirements for manufacturers of single service containers for milk and milk products, as specified by the FDA.

Leak Checker

Use for modified atmosphere and vacuum packaging.

Washdown Scales

Designed for use in the poultry, seafood and meat processing industries.

- IP65 washdown in battery mode. • Basic weighing, batch weighing, and over/under weighing.
- Portable, wireless design. • High degree of accuracy.
- Large, 9-inch x 9-inch removable stainless steel platform on a plastic housing.
- Initial, automatic, and semi-automatic zero-setting mechanisms.
- Adjustable auto shut-off to help conserve battery life.
- Weighs in pounds, pounds/ounces, ounces or kilograms.
- Six D batteries required, not included. ➔

Washdown Compact Scales

Ideal for fast and accurate checkweighing in washdown and dusty applications.

- Large LCD digits provides excellent visibility.
- 5,000-hour continuous operation with batteries, LED and backlight off.
- Key lock function prevents unwanted changes to settings.
- Custom auto power OFF function avoids wasting power.
- Four selectable weighing resolutions: 1/3,000, 1/6,000 (or 1/7,500), 1/12,000 (or 15,000), and 1/30,000.
- Multiple weighing units: gram, kilogram, pound, ounce, troy ounce, pound-ounce, tael (Singapore/HK jewelry/ Taiwan), tola and Newton.
- Counting mode to count a number of small pieces of the same weight instantly and precisely.
- Take-away check weighing possible using auto-tare and negative comparison functions.
- Six D batteries required, sold separately. 🔋

Washdown Compact Scales with Bluetooth

Same great scale as above now with Bluetooth connectivity.

Two ways to connect:

- USB fob (AD-8541-PC): Uses Bluetooth to send and receive data to and from a PC to your scale.
- External Remote Display (AD-8931): Receives and displays weighing values from the scale. Stands on a table or wall-mount.
- Bluetooth range: approx. 10 meters.
- Scales require six D batteries required, sold separately. 🔋

NOTE: If connecting device is Bluetooth compatible, USB fob (A) is not required.

Stainless Steel American Calibration Weight Set

Calibration weights test accuracy of commercial scales quickly and easily.

- Complies with NIST Class F tolerance and specifications.
- Tests most accuracy class III scales and scales not marked with a class designation.
- Required for all Legal For Trade applications (include any products that are sold by weight).
- Certificate of Accuracy — states the weight(s) were manufactured per NIST accuracy guidelines.
- Traceable Certificate - states the weight(s) are tested and linked directly to the NIST specific standard applicable to weight class.
- Case size: 8-1/2 inches x 7-1/4 inches x 3-1/4 inches. • Shipping weight: 3-1/2 pounds.

***NOTE: Certificate of Accuracy or Traceable Certificate must be ordered at time of purchase.**

WHICH THERMOMETER IS RIGHT FOR YOU?

TYPE	CONSTRUCTION	STYLES	USES
GLASS	<ul style="list-style-type: none"> Usually filled with mercury, spirit-filled or biodegradable liquids. Handled delicately because they are fragile and can be easily broken. 	<ul style="list-style-type: none"> Partial immersion. Total immersion. 	<ul style="list-style-type: none"> Partial immersion: Designed for areas with limited space. Subject to outside temperature variables. Total immersion: Placed entirely into the liquid, therefore, are more accurate – however, more space is required to obtain readings.
ANALOG Dial/Bi-Metal	<ul style="list-style-type: none"> Metal or plastic. Insert probe into the material being measured, the dial face is easily read. Good substitute for glass thermometer. 	<ul style="list-style-type: none"> Standard dial face with probe. 	<ul style="list-style-type: none"> Instead of glass thermometers for applications requiring more durability. Used around food.
DIGITAL	<ul style="list-style-type: none"> Most constructed with a plastic housing, which holds the digital components, and a metal probe. 	<ul style="list-style-type: none"> Most common uses a thermocouple probe that is designated by the letters, "K", "J" or "T"; and various probe shapes are available. 	<ul style="list-style-type: none"> Used in many applications – often to measure liquids, gases and solids. Durable and easy to use.
INFRARED Non-Contact	<ul style="list-style-type: none"> Usually constructed of plastic with electronic components. 	<ul style="list-style-type: none"> Designed to collect energy that has been reflected or emitted from a surface and converts that energy into a specific temperature. 	<ul style="list-style-type: none"> Perfect for use on moving objects, hard-to-reach objects and hazardous materials. NOTE: Accuracy diminishes the farther away from the object, and these thermometers are not recommended for HACCP environment or product temperatures.

BIG RED® Water-Resistant, T-Handle Pocket Thermometer

- Extra-sturdy, T-handled 4-1/2-inch stainless steel probe for firm or semi-firm product.
- T-handle overall dimension: 6 inches x 3-1/2 inches x 1-1/2 inches.
- Large readout, auto shut off. • Accurate to ±2 °F. • 0.1 °F/°C resolution.
- Range: -58° to 572 °F/-50° to 300 °C.
- Requires LR 1.5 V battery (included). 

Includes pocket clip sheath for stem protection.

Waterproof Digital Lollipop Thermometers

Can be used as a food or dishwasher holding thermometer.

- IP65 Waterproof housing. • °C/°F switchable. • Display reading update: 1 second.
- Min./Max. memory stores lowest/highest readings. • Resolution: 0.1 °F /°C.
- Requires 1.5 V LR44 battery (included). 
- (A) Measurement Range: -40° to 311 °F/-40° to 155 °C
Operating Range: 32° to 122 °F/0° to 50 °C.
- (B) Measurement Range: -40° to 311 °F/-40° to 155 °C
Operating Range: 32° to 122 °F/0° to 50 °C.
- (C) Measurement Range: -58° to 392 °F/-50° to 200 °C
Operating Range: 32° to 122 °F/0° to 50 °C.

NOTE: All styles include probe cover with pocket clip. Styles A and B also have a hanging loop.

Heavy-Duty Digital Thermometer

Auto hold feature tells when the temperature reading is stable for a set duration of time.

- Measure the temperature of semi-solid foods.
- Range: -58° to 527 °F/-50° to 275 °C. Accurate to ±1 °C.
- Heavy-duty 100 mm (3.93 inch) long stem.
- 0.1 °C resolution.
- Ergonomically designed to fit comfortably into hand.
- Limit the value setting with a visual and audible alarm.
- Turns off automatically after 10 minutes of no use.
- Requires 4, 1.5 V batteries (included). 

Includes a belt clip sheath for probe protection.

NOTE: Frozen food corkscrew probe also available.

Waterproof Digital Pocket Thermometer with Temperature Alarm

Thermometer can be programmed to provide a visual alarm once the set temperature is reached.

- Anti-microbial plastic* case inhibits growth of pathogens.
- Eliminate the risk of a mercury spill — thermometer stores the maximum heat registered and is waterproof.
- Range -40° to 450°F/-40 to 232 °C. Accurate ± 2 °F/ ± 1 °C.
- 4-1/2-inch stem length with reduced tip for delicate products and quick (<6 seconds) response time.
- Auto off after 10 minutes of non-use.
- Includes yellow, anti-microbial casing and sleeve.
- Dishwasher safe.
- Maximum and minimum temperature memory, plus hold mode.
- Requires 1.5 V battery (included).

Commercial Thermocouple Thermometer with Folding Probe

Probe folds into two angles, plus into itself for easy storage.

- Easy-to-read LCD readout.
- Temperature range -40° to 572 °F/-40° to 300 °C.
- 1.5 mm FDA recommended step down probe tip.
- Stabilized reading in 5 seconds or less.
- ± 2 °F/ ± 1 °C between 14° to 212 °F/-10° to 100 °C.
- ± 3.6 °F/ ± 2 °C balance of range.
- Resolution: 0.1 °F / 0.1 °C.
- 4-inch stainless steel probe. • Calibratable.
- Hold and auto off features.
- Requires two AAA batteries (included).

Atkins AquaTuff™ Waterproof 351 Wrap&Stow™ Digital Thermometer

Designed for precise temperature measurement with Total System Accuracy™ of ±0.9 °F/±0.5 °C.

- 32-inch cable features “wrap and stow” storage.
- Water-resistant construction. rugged ABS plastic housing.
- Heavy-duty patented probe cable is reinforced with Kevlar® and stainless steel braid.
- DuraNeedle probe can be replaced with any type “K” probe shown below.
- Probe is calibrated with instrument for Total System Accuracy™.
- Temperature range: -100° to 500 °F/-73° to 260 °C.
- Quickly switch between Fahrenheit and Celsius.
- Auto shut off after 10 minutes of non-use.
- Includes 5 year manufacturer warranty on thermometer unit.
- Compact size: 2-1/10 inches x 6-1/4 inches x 1 inch.
- Requires two AAA batteries (included).

Wrap&Stow™ probes can be easily replaced in the field without tools or need for calibration.

Digital Food Processing Thermometer with Clock

Extra-tough, waterproof housing makes this thermometer perfect for the food processing and seafood industries. Plus, it has a 2-year battery life guarantee!

- Permanent clock reading, countdown timer and data hold all displayed on the easy-to-read screen.
- Heavy-duty ABS plastic housing with an antimicrobial agent that reduces potential contaminations.
- Countdown timer determines how long probe is in product to obtain the most accurate of readings.
- Secure Lumberg probe connection with coil cable extending over 3 feet.
- Range: - 328° to 752 °F/-200° to 400 °C. Accuracy: ± 0.9 °F/ ± 0.5 °C.
- Type T thermocouple standard. • Auto switch-off after 3-, 10-, or 30-minutes.
- Reinforced 4-inch stainless steel probe.
- Dimensions: 3-1/10 inches L x 1-1/5 inches D x 7-1/5 inches H.
- Operates on two 3.6 V lithium cell batteries (included). 

Rubber boot protects from impact damage, extending unit life. Pops off for easy cleaning.

Adjustable Angle, Bi-Metal Dial Thermometer

- 3-inch dial adjustable angle • 1/2-inch NPT connection.
- Glass lens (other options available).
- Head rotates 360° and stem positioning over 180°.
- Tru Anti-Parallax dial, easy-to-read from any angle.
- Accuracy ±1% full span per ASME B40.3 Grade A.
- Hermetic Seal per ASME B40.3 dust proof and leakproof.
- Temperature Range 0/250 °F/°C dual scale (custom ranges available).
- Stem length 2-1/2 inches x 1/4 inch diameter (custom lengths available).
- 304SS external parts. • Corrosion resistant to most chemicals.
- 8-year manufacturer warranty.

Stainless Steel Long Stem Thermometers

Ideal for many food and beverage or general lab use applications.

- Bi-metal, scale range: 0° to 250 °F, tapered tip for quick response time.
- 3-inch, anti-fog, shatterproof acrylic lens is hermetically sealed to housing.
- All stainless construction.
- Heavy-duty reinforced stem, pointed for easy insertion.
- Optional EZ-insertion threaded handle is easily removed for cleaning and storage. (order separately).

Optional, removable aluminum handle is recommended for use with long stems.

THERMOMETER CALIBRATION

In order to be in compliance with HACCP regulations we recommend the following thermometers be calibrated or calibration verified. Please follow the manufacturers procedures when calibrating all thermometers. Accuracy will be improved when calibrating to a temperature close to that measured. Always calibrate using a known temperature source (NIST traceable certified thermometer or instrument). Calibration should be performed on a regular basis as indicated by the table to the right.

NEED ASSISTANCE?

Our experienced customer service representatives are available to answer your questions, find the products you are looking for, check product availability, as well as take your order.

800-456-5624

* Tel-Tru Manufacturing Company recommends: Thermometers used daily should be checked daily to verify their accuracy. The method of checking thermometer accuracy should be in comparison to instruments whose accuracy is also verified and documented as traceable to the National Institute of Standards and Testing (NIST).; A known temperature source should be used which is stable, consistent and whose accuracy may be documented as traceable to NIST. Due to typical standard tolerances of error in various temperature measurement instruments the calibration verification check and recalibration (if necessary) be done at a temperature that is equal to or reasonably close to the critical limit for monitoring a critical control point.

** Calibration must be done at O.E.M. Refer to manufacturer instructions for return shipping information to manufacturer.

Tel-Tru Check-Set Calibrators, 3-Inch Stem or Longer

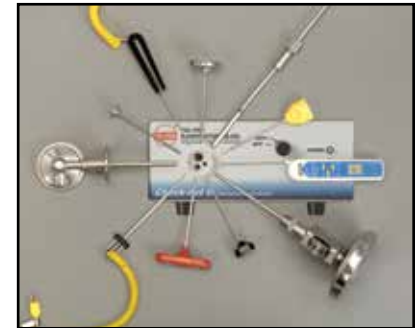

Built-in tool makes adjustments fast and easy!

- Insert 3-inch or longer stemmed thermometer with a 3/8-inch, 7/16-inch or 5/8-inch hex calibration nut into the calibrator and twist. Also, please note the hex key is only for those models with 0.125-inch, 0.150-inch, 0.187-inch well insert.
- Verifies the accuracy of any stem dial thermometers and other temperature devices.
- Each unit serialized and certified traceable to NIST. • Accuracy is ± 0.02 °F. • Weight: 9 pounds (4 kg).
- Heavy-duty stainless steel housing. • No batteries required. • 5-foot grounded power cord. • 115 V.
- Check-Set IV (D) has multi-probe receptacles to calibrate all digital and bi-metal thermometers.
- Dimensions: Check-Set I Hot: 11 inch x 6-5/8 inches x 3-1/8 inches.
All other Models: 8-3/4 inches x 8-7/8 inches x 4-1/4 inches.

Check-Set II (C) and Check-Set IV (D) have multiple points of calibration so you can calibrate closer to the temperature points you use in actual applications – increasing the accuracy of your thermometers!

NOTE: Additional stem well sizes available as accessory to use with 3327 00281, 3327 0037 and 3327 03101. SEE BELOW.

Glass Calibration Thermometer

Certified precision instrument used to calibrate both digital and bi-metal thermometers.

- Glass body with gradations and numbers that will not fade or scratch and has a yellow back for easy reading.
- Mercury is encapsulated with Teflon® to contain the mercury in case of breakage. Non-mercury filled model available.
- Certified at 32°, 122° and 212 °F; ranges: 0 °F with 1° divisions.
- NIST traceable certificate of calibration with each thermometer.

Black, plush-lined protective carrying case included with item# 3345 2521.

ITEM NO.	PRODUCT	RANGE	EACH
3345 2521	A. Certified Calibration Thermometer (NOT for Use in California)	0° to 212 °F	\$330.85
3345 12301	B. Certified Calibration Thermometer* (For Use in California) Contains NO Mercury	0° to 230 °F	294.55

*Carrying case not included.

Single-Use, In-Transit Temperature Recorder

Easy-to use, portable, self-contained temperature recorder provides permanent records.

- An inexpensive and reliable way to monitor conditions during storage or transportation of temperature sensitive products. Battery powered, it generates a permanent strip-chart record of temperature conditions; the receiver simply removes the chart to review the temperature history of the shipment.
- Temperature range: -20° to 100 °F/-29° to 38 °C. • Simple to operate.
- NIST traceable calibration. • Visible start-up verification. • Available in 10 and 40 day charts.
- Dimensions: 6-1/2 inches L x 2-3/5 inches W x 3-1/2 inches H. • Weight: 10.5 ounces.

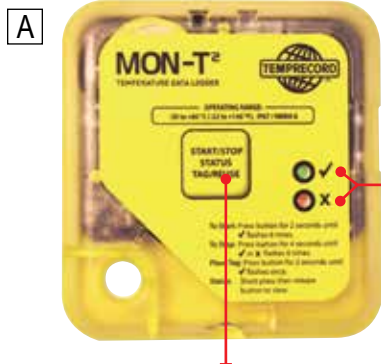

ITEM NO.	PRODUCT	EACH
3529 01101	Ten Day	\$15.56
3529 01401	Forty Day	15.56

Temprecord Temperature Data Loggers

For monitoring perishable or temperature-sensitive products in transit or as part of the cold chain.

- Fully welded food grade plastic case. • FDA compliant. • Recyclable.
- Case Protection Waterproof to IP67 and/or Nema 6.
- Manganese Dioxide Lithium (3.0 V) battery. Enclosed in logger.
- Compliance made easy with automated PDF report generation. Use speed-buttons from TempWrite software to: Save as TempWrite *.TWD files; Save as *.PDF files; Export to MS Excel; E-mail or print.

Push button feature allows user to 'Start' or 'Stop' data logger in the field. Also allows placement of tags. Functionality of the Push Button can be enabled or disabled through TempWrite software.

A. MON-T² Economy Logger

Ideal for transportation!

- 16K non-volatile memory.
- Temperature accuracy: 1 °F/0.5 °C.
- Case range: -22° to 140 °F/-30° to 60 °C.
- Display resolution 0.1 °C/0.1 °F
- No traceable calibration certificate available.
- Sample capacity: 16,384 samples.
- Recording duration: 8.8 hours (up to 12 months).
- Easily download data using Temprecord Reader Interface.
- Dimensions: 3 inches L x 2-7/8 inches W x 5/8 inches D (77-1/2 mm L x 73-1/2 mm W x 14 mm D).
- Push button start/stop/status.
- Weight: 1.62 ounces (55 g)
- Compatible with Windows 7, 8 and 10.
- Warranty: 12 months or 200,000 samples.

LED Status Indicators: By simply pressing button to view status, the ✓ (green) and ✗ (red) LED indicators allow instant confirmation of recorded data being within or outside of specified upper and lower temperature range. When button pressed and released, the green LED will flash three times if recorded temperature is within limits or the red LED will flash three times if recorded temperature is outside limits.

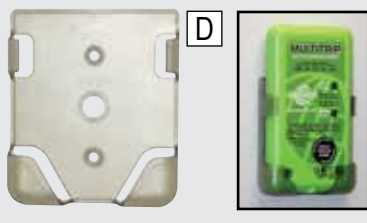

C. USB Reader Interface

Required to read/download data from loggers.

- Connect to computer via USB port.

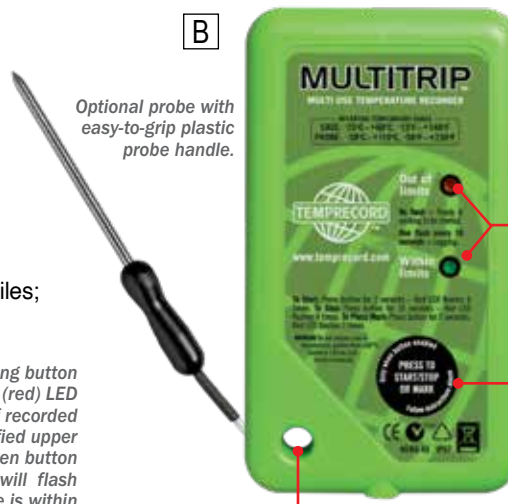

D. Optional Plastic Logger Holder

Allows for mounting logger to wall or surface.

ITEM NO.	PRODUCT	EACH
F756 00021	A. MON-T2 Economy Logger	\$73.01
F756 14161	B. MULTITRIP Logger (No Probe).	229.42
F756 31311	MULTITRIP Logger (With Probe)	394.06
F756 14171	C. USB Reader Interface.	195.08
F756 21831	D. Plastic Logger Holder	27.04

B

Optional probe with easy-to-grip plastic probe handle.

LED Status Indicators: 'Within limits' (Green) LED Indicator and 'Out of limits' (Red) LED Indicator allow instant confirmation of recorded data being within or outside of specified upper and lower temperature range.

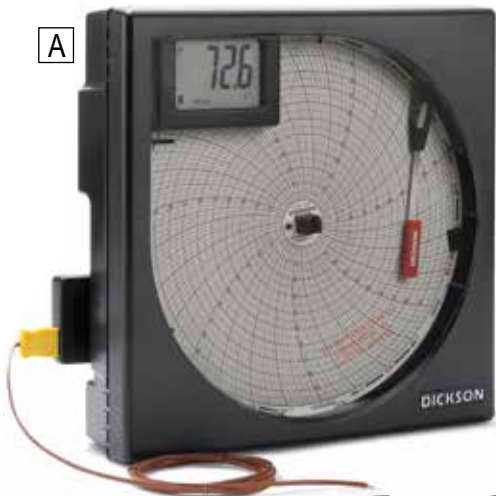

Push Button feature allows User to 'Start' or 'Stop' data logger in the field. Also allows for the setting of indication 'Markers' during data recording for future reference. Functionality of the Push Button can be enabled or disabled through TempWrite software.

Fully moulded and ultrasonically welded retaining hole for easy securing of the data logger within different environments.

B. MULTITRIP Logger

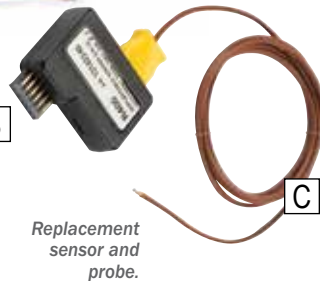

Available with or without plastic handle probe.

- 8K non-volatile memory.
- Calibrated temperature accuracy: 0.35 °F/0.2 °C.
- Case range: -13° to 140 °F/-25° to 60 °C.
- Display resolution: 0.01 °F/0.01 °C.
- 3-Point Calibration built into logger: Superior accuracy with no need for corrections or calculations to be applied to downloaded data; avoids human data entry errors.
- Traceable Calibration Certificate included.
- Sample capacity: 7,935 samples.
- Recording duration: 4.4 hours (up to 2 years).
- Push button start/stop or mark.
- Weight: 2.85 ounces (81 g).
- Dimensions: 5-1/8 inches L x 2-7/8 inches W x 5/8 inches D (129 mm L x 73-1/2 mm W x 14 mm D).
- Compatible with Windows XP, Vista and Windows 7
- Warranty: 12 months on logger; 24 months on battery.

8-Inch Temperature Chart Recorder with Alarm

- Rugged black ABS case, polycarbonate door with aluminum dial.
- Includes AC adapter, red pen, four AA batteries, quick start guide and 4-foot bead-wire probe.
- User selectable temperature ranges: -50° to 50 °F/°C, -20° to 20 °F/°C, 0° to 100 °F/°C, 0° to 150 °F/°C, 0° to 250 °F/°C, 0° to 500 °F/°C, 0° to 1,000 °F/°C, 0° to 2,000 °F.
- 120 to 240 VAC, 12 VDC (INTL fittings available); optional AC adapter available.
- Keypad functions include power on/off, pen home and alarm.
- Mounting options include free standing or wall mounted. • 6-foot power cord.
- Charts sold separately. • Chart rotation speed: 24 hours, 7 day or 31 day.
- Dimensions: 3-1/10 inches L x 9-1/5 inches D x 9-1/5 inches H.
- Alarm types are audio/visual on high/low limits. • Battery Backup: Four AA Batteries.
- Temperature Accuracy: ± 1.8 °F from -22 °F to 122 °F 3.8F remaining (±1 °C from -30° to 50 °C 2.1C remaining). • Powers unit for up to 3 days. 72 hours battery life (back-up only).

Template Kit

Simplifies the process of cutting bulk roll material into individual door strips.

- Fabricated of non-slip 1/4-inch acrylic.
- Dimensions are permanently etched directly on the template.
- Special drill bit bores a perfectly round hole into material to prevent tearing.
- Kit includes template, drill bit and marker.

NOTE:
We recommend mounting these doors 1 foot above door opening to eliminate tearing strips with tall loads.

ITEM NO.	PRODUCT	F.O.B. FACTORY EACH
G368 2700	Quickmount™ Template Kit	\$61.51

All strip doors are designed to mount on either the inside or outside wall above the door opening with a minimum of 5" overlap on each side.

How to figure the AMOUNT OF STRIP NEEDED

1. **Measure** the opening in feet (WxH).
2. **Add** 1 foot to the door height and width, depending on space available.
3. **Calculate** using the following formula in feet:
 - 6" Strips — (W x H) x (1-1/2) x (2)
 - 8" Strips — (W x H) x (1-1/2) x (1-7/10)
 - 12" Strips — (W x H) x (1-1/2)

8-inch PVC Strips
50% overlap.

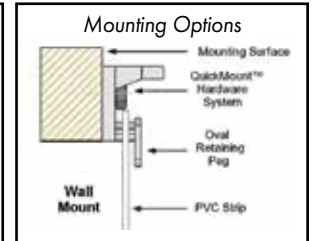

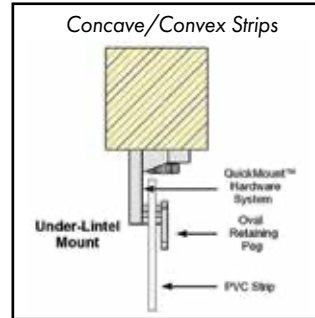

8-inch PVC Strips
100% overlap.

Aluminum HD Strip Door Mounting Hardware

- 70% faster installation time – 90% faster strip replacement time.
- One-piece, heavy-duty 1/4-inch thick aluminum construction won't rust or corrode.
- Use 3/8-inch bit to drill holes in strip material or template kit shown on facing page.
- 2-inch sections of mounting hardware snap together. • Includes installation instructions.

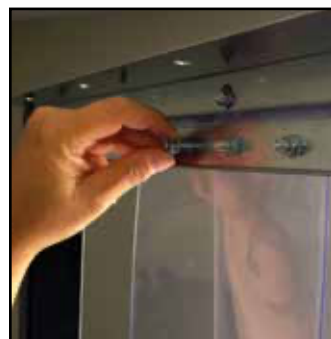

NOTE: Purchase Quickmount™ Hardware and Strips and get Quickmount™ Template for FREE! CALL FOR DETAILS.

Clear Antibacterial Door Strips

Antibacterial properties are blended into the compound to inhibit the growth of bacteria — will not wash out!

- Proven to kill 99.9% of bacteria like e-coli, staph and pneumonia on the surface of the PVC strip.
- Made of clear, high-quality durable vinyl, resists scratching and remains pliable in cold.
- Effective airflow, dirt and moisture block. • Can be used in walk-ins and food storage areas.

WHY REPLACE DOOR STRIPS?

- To reduce the transfer of contaminants between work areas.
- Old strips harbor bacteria in the cuts and cracks that form as a result of impact. • Worn and scratched strips cut down on visibility and safety.
- Maintain Temperature Integrity — Worn out strips have holes and cracks which allows cold air to escape and warm air to infiltrate.

E-Z Hang™ Clear Vinyl Door Strips

The BEST door strip program available!

- Able to withstand heavy traffic including forklifts.
- Made from a non-phthalate formulation.

NOTE: Other sizes available. CALL FOR MORE INFORMATION.

Mesh and Vinyl Roll-Up Doors

Complete kit ready to install!

Benefits:

- Significantly reduces heat loss while allowing light into work areas.
- Keeps out unwanted pests, birds and intruders.
- Controls airborne contaminants and improves building appearance.
- Mesh allows fresh air to flow through for comfort and productivity and helps meet FDA and AIB requirements.
- Three year warranty — one year warranty on motor drive mechanism.

Features:

- High speed: up to 36 inches per second.
- Low maintenance: no cables, wheels, springs or sewn construction.
- Wind load rated: 45 mph wind load*.
- Durable: fiberglass windbars won't bend or break. Automatically resets after impact.
- Quick and easy installation: upper box completely assembled in factory.
- Multi-season: exchangeable panels available in mesh, clear and solid vinyl.
- Fire resistant: meets NFPA-701 and CSFM standards for flame retardancy.
- Resistant to all ultraviolet rays and is rot, tear and mildew resistant.

Available Options:

- Vinyl Door color options: gray, black, blue, beige, green, red, yellow, orange and white.
- Mesh Door color options: gray, black, almond, royal blue, spruce green, yellow and red.
- Operations include: manual chain hoist, 18 inches per second (in tube motor), 28 inches per second and 36 inches per second (external mounted motor).
- Various Control Options: hardwired and RF available to meet your specific application.
- Outside face mount or inside projection mount available.

* Wind load tested on a 10-inch x 12-inch solid vinyl roll-up door per ANSI/DASMA 108-2002.

Flexible Airguard® Doors

FLEXIBLE DOORS

Series 100 Doors Models Numbers 100E and 100CE

- Meets USDA requirements.
- 45-ounce, heavy-duty, abrasion-resistant vinyl coated nylon.
- Large 30 x 14-inch vision panel made from shatterproof polycarbonate.
- Top mounted gravity actuated hinge provides completely automatic operation. Opens instantly upon contact and closes automatically by gravity.
- 48-inch heavy-duty, 1/8-inch thick Kydex® impact plates mounted front and back of each door.
- Available in green only.

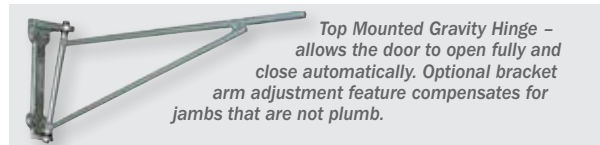

Model 100E (photo) Model 100CE

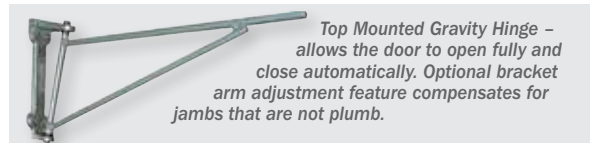

UNIFLEX 240 PVC Door Models Number 240PVC

- Constructed of two layers of 0.12-inch PVC heat welded together to a thickness of 0.24 inches and textured embossed finish.
- 15 x 14-inch clear vinyl window centered in each panel.
- Meets USDA requirements.
- Top mounted gravity actuated hinge provides completely automatic operation. Opens instantly upon contact, then closes automatically by gravity.
- Colors: navy, royal blue, chocolate brown, medium brown, forest green, red, metallic gray and black.

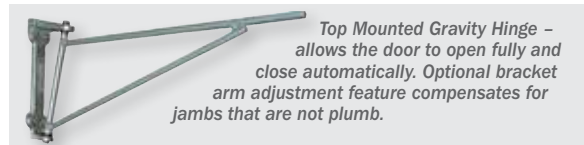

300 Belted Door Models Number 300 Belted

- For heavy use forklift and/or freezer applications down to -30 °F.
- Wiper seals are provided at bottom and top.
- Balloon seals provided at jamb edge of each door.
- Window centered in each panel 15 inches x 14 inches.
- Constructed of two layers of abrasion-resistant, two-ply “belting” material bonded together.
- Top mounted gravity actuated hinge provides completely automatic operation. Opens instantly upon contact, then closes automatically by gravity.
- Available in green only.

973 Standard Forklift Doors Models Number 973

- NOT for freezer applications.
- Constructed of 0.16-inch thick, PVC door body with a two-ply, vinyl coated nylon bracket pocket.
- Top mounted gravity actuated hinge provides completely automatic operation. Opens instantly upon contact, then closes automatically by gravity.
- Extra-large viewing area allows clear visibility and maximum safety.
- Balloon seals provided at jamb edge of each door, top and bottom wipers.
- Textured vinyl impact plates on both sides increases strength and durability of door.
- Available in black or red.

PRICING AND INFORMATION**

P-11 Plus Impact Traffic Door

For applications requiring an economically priced solution that is both durable and attractive.

- Includes 14 x 16-inch scratch-resistant clear acrylic window set in black rubber molding.
- 14 gauge steel back channel powder coated back. • 1/2-inch thick ABS frame with honeycomb core.
- 0.100-inch thick high impact thermoplastic exterior (both sides).
- Operates on a patented easy swing hinge system.
- Optional: impact plates, push plates, easy spring bumpers, lower hinge guards, various window shapes and sizes as well as flush style windows.
- Colors: black, red, fudge brown, navy, cloud gray, antique white, beige, royal blue, cadet blue, chocolate brown, medium brown, gray, metallic gray, forest green white and off white.

SRP 5000 Medium-Duty Traffic Door

Constructed of 1/2-inch thick stress relieved high-density polyethylene, textured to hide normal dents and scratches. For use with carts, pallet jacks and people.

- Includes 9 x 14-inch acrylic windows set in rubber molding.
- Can be custom designed to fit any plant, store or restaurant application.
- Doors can be mounted on either wood or metal jambs, frames not included. • Not gasketed.
- Back edge spine is a one-piece, continuous extruded 1/4 inch x 2-inch diameter anodized aluminum tube with flanges that radius the door panel for added strength and durability.
- Colors: chocolate brown, red, metallic gray, black, beige, white and cloud gray.

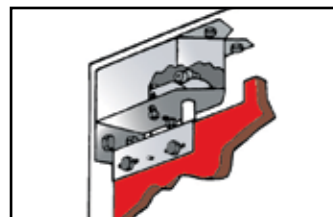

Big Foot Door Pull

- All aluminum one-piece construction.
- Easy installation, mounting hardware included.
- Hands-free operation.

Structural Steel Door Frames

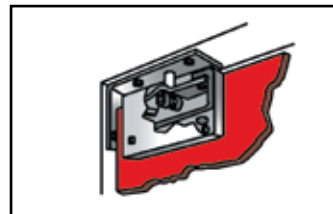

Manufactured of tubular steel to fit your door opening. Shipped knocked-down in three easy to assemble pieces.

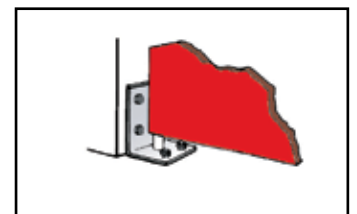

Classic "C" Hinge — can easily be adjusted after removing the cover and screws.

Back Spine — Heavy-duty "U" shaped fiberglass pultrusion further stiffens the spine for added strength and stability.

Classic "E" Hinge — gravity close hinge system mounts to the jamb with offset hardened steel cam and rollers.

Heavy-duty bottom hinge pin stabilizes the panel in the frame.

CR1400 Corrosion Resistant Urethane Door

Manufactured to withstand the most corrosive environments from saltwater, chemicals, detergents, chlorine, acid, to humidity and more.

- Constructed with a 1/8" thick outer skin of rotationally molded polyethylene with an ultra high density foamed-in-place core.
- The panel can retain its properties from 30°F to 100°F continuous service, and 140°F intermittent service with temperature differences of up to 40°F.
- The overall thickness of the panel is 1-3/4", yet weighs only 3.66 pounds per square foot, making it lightweight and easy to open.
- The sanitary surface never needs painting and cleans easily with soap and water.
- All doors come standard with a replaceable bottom sweep, and are available with a drop down seal. Full perimeter gasketing is available.
- The CR1400 has excellent insulation qualities with an EcoMate foamed-in-place NON-CFC urethane core. Ecomate insulation is designed to be environmentally friendly; it was awarded VOC (Volatile Organic Compound or SMOG) Exempt Status by the EPA.

Constructed with a 1/8" thick outer skin of rotationally molded polyethylene

Solid resin transfer molded door frame.

Many window options.

Ultra high density foamed-in-place core.

Every Door is CUSTOM MANUFACTURED to Your Exact Requirements.

- Up to 122 °F (50 °C) in 5,000 lumen package.
- Dimming: 0-10 V.
- Weight: 7-1/2 pounds.
- Dimensions: 13 inches L x 10-1/4 inches W x 5-3/5 inches H.

shat-r-shield lighting inc.

SPECIAL ORDER ITEM

At 7-1/2 pounds, this fixture is extremely light-weight.

Thumb screw makes junction box easily accessible and can be loosened or tightened without using any tools; allows for a simple one-person installation.

Stainless steel screws are corrosion-resistant and can withstand the harshest environments.

Tapered fins allow for water runoff so the fixture can be washed down with high-pressure as often as needed.

Frosted polycarbonate lens (shown) is 1 of 5 lens options. This particular lens is optically engineered to eliminate hotspots and create uniform, glare-free illumination.

Shat-R-Shield® Waterproof LED Lamps

IP68 Waterproof, Safety-Coated LED lamps have a thin layer of silicone coating that completely seals the lamp to protect fragile electronic components against moisture, corrosion and premature failure. Ideal for any application exposed to harsh environments.

- Shatter-resistant, safety-coated lamps will contain all particles if the lamp is accidentally broken.
- The coating does not affect light output. <1% lumen loss.

LED WDL, Washdown Light

- WDL is an energy efficient linear LED fixture designed specifically for heavy wash-down applications.
- IP69K rated enclosure utilizes a 0.125-inch thick chemical and impact resistant frosted lens which provides a glare-free wide distribution light pattern similar to fluorescent products.
- UL 1598 for wet locations and battery back-up.
- ANSI/NSF 2 certified for splash zones.
- CSA Std C22.2 No.250.0

Extrutech Tongue and Groove 1/2-Inch PVC Ceiling and Wall Covering

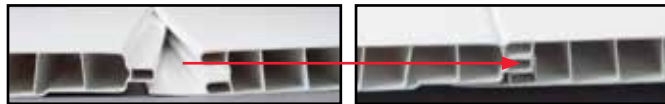

Stain-resistant, low-maintenance, waterproof panels are also easy to clean and ideal for high moisture areas. Materials are totally recyclable. Never needs painting and will not rot or rust.

- Panels meet ASTM E-84-05 and CAN/ULC S102.2-3 Class A fire rating.
- Custom cut lengths up to 20 feet long.
- No exposed fasteners.
- Can easily be cut using fine tooth blade, table saw or utility knife.
- Panels are 100% recyclable and do not support mold or mildew per ASTM D3273 and D3274.
- Panels are extruded from exterior-grade PVC.
- Easy to install using the tongue and groove system.
- Cleans with pressure washers or soap and water.
- Can be attached directly to walls and ceilings.
- Limited 10 year warranty.

NOTE: Not for use in freezer applications.

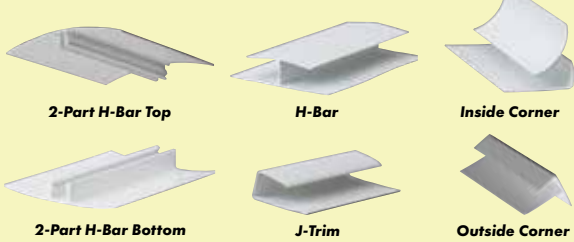

F.O.B. FACTORY

Panels slide together with tongue and groove design leaving no exposed fasteners to rust or promote mold or bacteria growth. Use stainless steel screws to connect nailing fin to wall or stud.

Dura-Seal 400 Light-Duty Industrial Concrete Floor Coatings

Chemically resistant and good in a water environment. Odorless after curing.

- One, 2-gallon container applies two coats over 325 sq. ft.
- By mixing 50/50, coating penetrates pores and forms a solid surface plate recognized by the USDA as a contaminant barrier.
- Apply by roller, brush or spray — leaves an easy-to-clean, hard, glossy surface suitable for incidental food contact.
- Meets all USDA and EPA standards.
- Quick-drying coating hardens to a 6-8 mil thickness.

NOTE: Must purchase floor prep/cleaning products shown below to validate manufacturer warranty.

Dura-Poxy Industrial Heavy-Duty Concrete Floor Coatings

A heavier-bodied "100% solids" catalyzed epoxy laminate. Very hard and highly chemically resistant. No odor. Hardens even in a water environment. Accepted by the USDA for Incidental food contact use. For use on floors with major irregularities.

- 8-hour curing time. • 1 gallon covers 125 square feet. at 8-10 mil.
- Quick drying coating hardens to a 20 mil thickness with 2 coats.
- For use on floors with major irregularities in the surface and floors that require maximum resistance to damage from falling tools, forklifts and similar causes of harm.
- Mix with quartz chips for high skid areas (such as wet or frosty environments) and to form a coating that is resistant to the passing of steel wheels or other heavy machinery.

Optional Quartz Granular Surface

NOTE: Require temperatures of at least 55 °F during application.

NOTE: Must purchase floor prep/cleaning products shown below to validate manufacturer warranty.

Sahara Pro X3 TurboDryer

Incredibly powerful static pressure and huge CFM volumes!

- Daisy-chain capability with built-in power outlet and circuit breaker.
- Low amp draw – 4 amps max!
- Excellent versatility with 3 speeds and 3 operating positions – 0°, 45° and 90°.
- Underside drying vent for drying under the airmover.
- Quick disassembly for cleaning.
- Rated airflow: 2700 CFM (4587 CMH).
- CFM/amp: 235.
- Static pressure: 1.28 inches (3.25 cm).
- CFM per 15 amp circuit: 2817 CFM, tested.
- Airflow velocity: 2,071 feet/minute (631 m/minute), tested.

CFM stands for “cubic feet per minute” and is a measure of air flow capability.
 Example: a 1000 CFM blower or fan can move air from an area 10 feet x 10 feet x 10 feet in one minute.

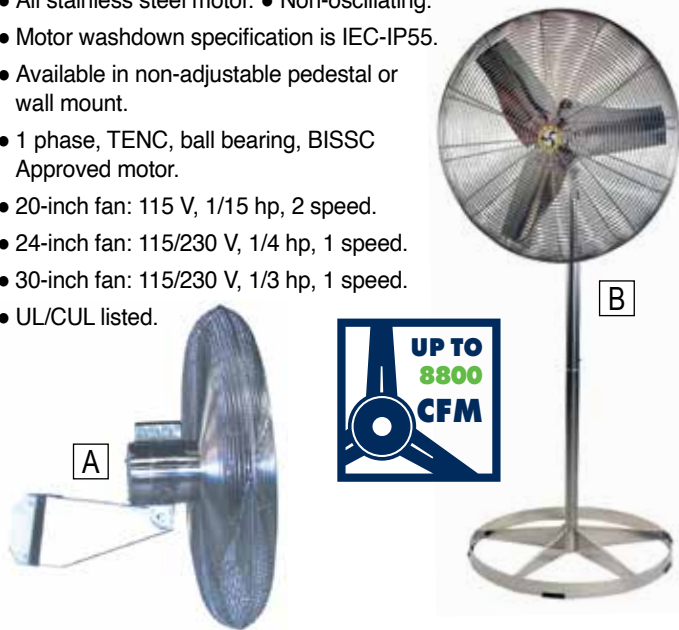

3-Position air flow allows air to be directed where you need it.

Stainless Steel Food Service Fans

Designed to withstand moist/wet environments, high-pressure cleaning with concentrated caustic solutions without affecting performance or function.

- Constructed with electropolished 304 stainless steel.
- Meets USDA and NSF requirements for food zones.
- All stainless steel motor. • Non-oscillating.
- Motor washdown specification is IEC-IP55.
- Available in non-adjustable pedestal or wall mount.
- 1 phase, TENC, ball bearing, BISSC Approved motor.
- 20-inch fan: 115 V, 1/15 hp, 2 speed.
- 24-inch fan: 115/230 V, 1/4 hp, 1 speed.
- 30-inch fan: 115/230 V, 1/3 hp, 1 speed.
- UL/CUL listed.

Magna-Plate Food Grade Grease

For use on machinery where grease may come into contact with edible product.

- White grease has excellent water-resistance and lubrication qualities.
- Good oil bleed characteristics at low ambient temperatures make it ideal for small, high-speed bearings.
- Standard grease is for temperatures under 250 °F (121 °C).
- High-Temp grease is for temperatures 500 °F (260 °C).
- Fits standard hand-operated grease gun.

▶ 10 PER PACK.

iFly Wall-Mounted Stainless Steel Adhesive Traps

Stainless steel commercial grade construction can withstand harsh environments.

- Easy-to-clean. Just replace adhesive trapping boards.
- Easy to install. Built in mounting slots help with mounting and levelling.
- IP65 - dust proof and waterproof. • Energy-efficient UV Insect Lamps.

A. iFly40 Adhesive Trap

- Attraction range: 1,150 square feet.
- UV Light output: 40 Watts. Uses two 24 inch, 20 Watt shatter-coated sleeved bulbs.
- Uses one 12 inch x 22 inch water-resistant glueboard.
- Dimensions: 11 inches W x 28 inches H x 5 inches D.

B. iFly65 Adhesive Trap

- Attraction range: 2,500 square feet.
- UV Light output: 80 Watts. Uses two 48 inch, 40 Watt shatter-coated sleeved bulbs.
- Uses two, 12 inch x 22 inch water-resistant glueboards.
- Dimensions: 11 inches W x 53 inches H x 3 inches D.

Easy bulb and glueboard replacement.

A

THE ONLY 2 FOOT AND 4 FOOT GLUEBOARD FLY LIGHTS THAT ARE BOTH WATERPROOF AND STAINLESS STEEL.

Fiberglass, Square Grid Floor Grating

- Weighs about one-quarter as much as steel grating.
- Available with a grit top or a concave, plain meniscus top.
- Integral grit top surface provides outstanding anti-slip protection for workers.
- Unlike metal grating, GatorGrate does not rust, never needs painting and is corrosion-resistant.
- Easy-to-clean. Smooth, tapered bars allows debris that enters the top to come out of the bottom.
- Can be easily cut with ordinary hand tools, using a masonry, carbide tip blade or diamond edge.

Cuts+More™ Scissors

These are not your average scissors!

- Fully hardened, precision-ground steel blades stay sharp, even when cutting a wide range of heavy-duty materials.
- Ergonomically sculpted handles provide comfortable use and cutting control.
- Dishwasher safe for easy cleaning.
- Pointed awl tip is perfect for piercing small holes in cardboard, leather, etc.
- Power notch cuts light rope.
- Wire cutter makes it easy to cut wire without damaging the blades.
- Bottle opener makes it easy to open your favorite beverage.
- Sheath protects blades, sharpens scissors and includes a tape cutter for opening boxes.
- Scissors can be taken apart and used as a titanium-enhanced knife that is ideal for cutting large or awkward objects.

► SEE PAGE 392
